**NORTHERN SEED
and NURSERY CO.**

BUY DIRECT and SAVE

IPSWICH, SOUTH DAKOTA

Here is a picture
of our Seed House.

We are filling it
up with all the best
varieties of hardy
Garden, Flower and
Field Seeds.

BUY CLEAN SEEDS

We have a modern battery of up-to-date cleaning machinery, including Clipper Clearers, Flax Cleaner, Scarifying Machine, Gravity Cleaner, Grading Machine, Wild Oat Cleaner and a Sutton, Steele and Sutton Specific Gravity Machine, and which we use to clean our seeds with.

BUY SEEDS THAT WILL GROW

The best always prove the cheapest in the end.

Not long ago a seedsman informed us that he mixed his new garden and flower seeds with all old seeds whether the old seeds would grow or not, as he said the average gardener planted his seeds too thick anyway and this saved the customer the job of thinning them out.

We prefer to send out seeds high in germination, as we are up against so many obstacles that nature throws in our path, such as early and late frosts, wind, beating rains that pack and harden the soil, cloudy days, dry and hot weather.

For these reasons and because we feel one should get value received for his money, we want to send out the best, and if you wish to test any of our seeds before planting and do not find them up to standard, send them back and your money will be returned. Now isn't that fair?

Garden Seeds

These varieties are tried out and mature and do well in the north. And all are appetizing and good to eat, (the main thing.)

We are offering no duplicates under different names and not too many different varieties and none that are closely related to one another and which are so confusing to one. Our varieties are listed under their true names. Many kinds of vegetables have as many as 50 to 100 names and it bewilders the average gardener to guess just exactly what to pick out.

Ask any experienced gardener and he will tell you our list cannot be improved upon.

A LITTLE ADVICE

Now in planting a garden several things are necessary for a success. First Good Seeds, then good soil and the right preparation and moisture and the logical or right time to plant. Outside of garden peas, sweet peas, onions and possibly a few other varieties it does not pay to plant too early in the spring. The best gardeners in this locality plant their main crops about May 10th, to May 20th, as so many times the earlier plantings are frosted and stunted or killed altogether and if the seeds can be planted so that they will grow from the word go, better vegetables and flowers will be raised.

FREE—For every dollar's worth of garden and flower seeds ordered, pick out 15c more of any kind as a premium.

BEANS

Improved Golden Wax

FRENCH'S DWARF HORTICULTURAL—

Produces an abundant crop of long green pods splashed with crimson. The plants make healthy and strong growth. It is stringless and used when green for snapping. The beans are extra fine to cook when dry. Pkt., 5 cts. $\frac{1}{2}$ Lb., 25 cts. 1 lb 45cts;

BOUNTIFUL—One of the most productive stringless green podded beans grown. Pods average about six inches and are very brittle. Pkt., 5 cts. $\frac{1}{2}$ lb., 25 cts. 1 lb, 45 cts;

IMPROVED RUST-PROOF GOLDEN WAX—

The pods average five inches long, are stringless, quite fleshy, straight, broad, flat and of a rich golden color. The vines grow erect Pkt., 5 cts. $\frac{1}{2}$ lb., 25 cts.. 1 lb, 40 cts;

KENTUCKY WONDER, OR OLD HOMESTEAD—

Probably the most popular, green-podded climbing or corn-hill bean grown. Very early and productive, pods will grow to eight and nine inches long; are very slender, curved and of tender quality. Pkt. 5 cts. $\frac{1}{2}$ Lb. 25c. 1 Lb. 45c.

HENDERSON'S IMPROVED DWARF LIMA—Very productive and bears continuously all summer. There are but a very few varieties of the limas that will mature in the northwest and this is the only variety that experienced gardeners recommend. Pkt. 10 cts. $\frac{1}{2}$ Lb. 35c.

GREAT NORTHERN—The most Delicious Baking Bean in the World. It is a wonderful yielder and one of the most profitable sorts that can be raised. Grown to the exclusion of all other varieties of field beans in many places. Pkt. 5c. $\frac{1}{2}$ lb., 20c 1 lb., 30c. Express or freight, 10 lbs., \$1.25.

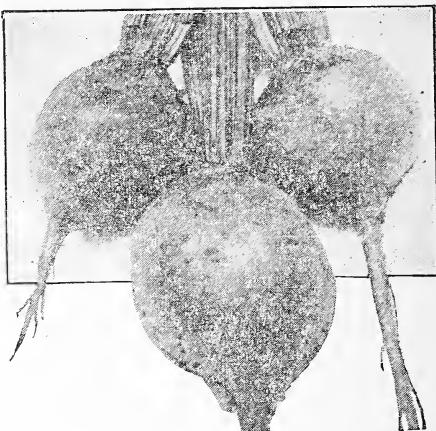

BEETS

DETROIT DARK RED—One of the very best sorts for home or market garden and for canning or pickling. Roots uniformly smooth, medium size and beautifully globe shaped; skin and flesh dark red, tender and sweet. Pkt., 10c. Oz., 20c.

CROSSBY'S EGYPTIAN—This is a globular shaped beet and one of the best known and popular varieties grown. It is very early and of fine quality. Bright red with clear vermillion flesh. Pkt., 10c. Oz., 20c.

MAMMOTH LONG RED—An enormous producer of extra large solid roots. A fine keeper and an extra fine feeding beet for dairy. Pkt., 5c; $\frac{1}{2}$ lb., 35c.

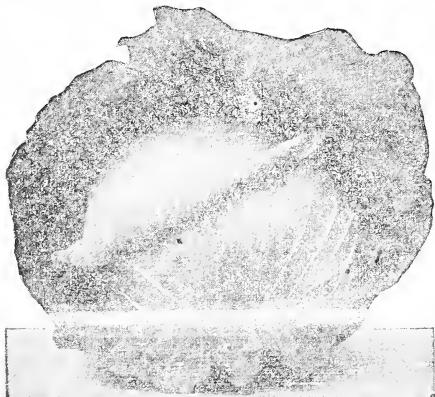

SWISS CHARD—The plant grows to a height of two and one-half feet with stalks heavily ribbed and from ten to twelve inches long below the leaves; are delicious when cooked and served in the same manner as asparagus. The leaves are large, heavily crumpled, crisply tender and of fine flavor. The leafy portion of the foliage is cooked and served in the same manner as spinach. Pkt., 10c. Oz., 20c.

Detroit Dark Red

CABBAGE

EARLY JERSEY WAKEFIELD—Heads are conical, very hard and solid and of excellent quality. Most gardeners depend upon it for the bulk of their extra early crop and its hardness to resist cold. Pkt., 10c; oz., 20c.

Copenhagen Market

COPENHAGEN MARKET—Has a short stem and the outer leaves shade the ground so the soil does not dry out as readily. It makes a fast growth and matures early. Has a round head with fine veins and small core, averaging about ten pounds in weight. Can be planted closely together and will yield a greater crop per acre than any other cabbage. Pkt., 10c; oz., 30c.

DANISH BALL HEAD—Leading late variety, especially on medium to light soils. Heads are round and fine keepers. The strong growth of this variety enables it to withstand dry weather well and its good keeping quality makes it a most valuable Cabbage for winter storing. Pkt., 10c; oz., 25c.

PREMIUM LATE FLAT DUTCH—Produces large round flattened heads. One of the best for kraut. Is one of the best late fall and winter varieties and an old standby. Pkt., 10c; oz., 25c.

For Cabbage worms spray or dust the heads with Paris green or arsenic of lead. As the cabbage grows from the inside there is no danger of poison. See Cababge plants under "Vegetable plants."

CARROTS

CHANTENAY—Uniform and intermediate in size and shape. The flesh is of a deep golden orange color. For table use one of the best. Pkt., 10c. Oz., 20c.

Chantenay

GUERANDE OR OX-HEART—Tops are small for the size of the roots, which are comparatively short. Flesh bright orange, fine grained and sweet. This variety is especially desirable for soil so hard and stiff that longer rooted sorts would not thrive in it. Pkt., 10c; oz., 15c.

YELLOW BELGIAN—Grown exclusively for stock feeding and is an enormous yielder of large golden colored carrots and greatly relished by milk cows and horses. Pkt., 5c; oz., 15c; ½ lb., 45c.

WHITE PLUME—This is an early and an easily blanched celery. Plants grow rapidly and when maturing the inner stems and leaves turn white and they blanch naturally, but in order to produce close, attractive bunches, the stalks should, when three-quarters grown, be drawn together and the soil pressed around the plants, which will then in a short time be fit for use. Pkt., 10c.

GOLDEN SELF BLANCHING—An excellent variety that does not require much blanching. Is very stocky and the heart is of a rich golden color and the outer leaves a yellowish green. Pkt., 10c.

See Celery Plants under "Vegetable Plants."

SWEET CORN

GOLDEN BANTAM—The finest and most popular sweet corn in cultivation. It is sweet and tender and a heavy producer and the ears remain edible for an unusually long time. This strain we grew and developed and can highly recommend it for earliness. Pkt., 5c. ½ lb., 15c. 1 lb., 25c;

BANTAM EVERGREEN—Bantam Evergreen is a cross between Golden Bantam and Stowell's Evergreen. It inherited all the good qualities of both parents and is as sweet as Golden Bantam, the same beautiful color, but in addition has an ear nearly as large as Stowell's. The kernels are deep grained and plump. Pkt., 5c.. ½ lb., 20c

CITRON

CITRON—The old standard variety used for preserves and sweetmeats. Pkt., 5c.

CAULIFLOWER

DRY WEATHER CAULIFLOWER—The raising of cauliflower in the northwest has been a Jonah to most of us but this variety has been selected and bred to withstand dry weather conditions and makes a very solid and large head of a delicious flavor. Dry weather will succeed where all other varieties fail. Pkt., 10c.

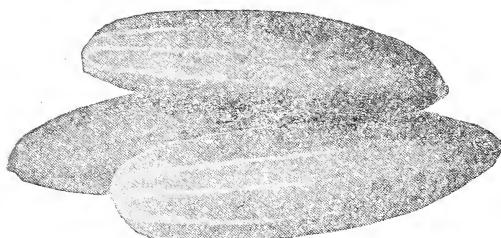

EGG PLANT

IMPROVED NEW YORK—A very prolific bearer of large dark purple fruit, the quality is excellent and free of thorns. Pkt., 10c.

"Your Garden and Flower Seeds certainly grew fine."

"The bushes that were received from you last year did just wonderfully well. My Geraniums last summer were the best I ever saw."

CUCUMBERS

Davis Perfect

bearer and very uniform and especially fine for pickles. Has a very dark green skin, thick flesh tender and crisp. Pkt., 10c. Oz., 20c.

PEERLESS WHITE SPINE—One of the earliest and most productive of the famous white spine group. Fruit is rounded at both ends, and of bright deep green color. Very popular as a market variety on account of its good keeping qualities and its uniformity of size and shape. Pkt., 10c. Oz., 20c.

DAVIS PERFECT—Without question the handsomest cucumber grown for outdoor culture. The fruits grow long and slim, sometimes measuring 12 inches in length; the color is a rich, dark, glossy green, which they hold until nearly ripe. It is very tender, brittle and of fine flavor. Pkt., 10c. Oz., 20c.

EARLY FORTUNE—One of the best all around cucumbers grown. Heavy

LETUCE

Black Seeded Simpson

tuces succeeds everywhere and at all seasons. It is a sure header and an excellent shipper. We can recommend it for both private and market gardener's use. The plants are medium size with broad crumpled leaves of light green color and the quality is excellent. Pkt., 10c; oz., 20c.

GRAND RAPIDS FORCING—It matures quickly and is of a large size, handsome appearance; crisp and tender. The leaves are bright green and crimped at the edge. It is one of the best varieties for garnishing and general use. Pkt. 10c. Oz., 20c.

BLACK SEEDED SIMPSON—One of the best and most largely planted bunching varieties. Very satisfactory and it is very reliable and easily grown; it succeeds during summer when more delicate sorts are failures. A good shipper. Leaves broad and of fine quality, sweet and tender. Pkt., 10c; oz., 20c.

ICEBERG—The outside leaves which are light green branch towards the center which blanches the heart. It is very firm, crisp and of good flavor and forms good sized solid heads. Pkt., 10c; oz., 20c.

TENNIS BALL—One of the very best head let-

MUSKMELONS

EMERALD GEM—A very popular variety with both home and market gardeners. Color is a dark emerald green, with lighter stripes. Flesh very thick, of a dark salmon color. This variety is considered by many to be the best of all musk melons. Pkt., 5c. $\frac{1}{4}$ lb., 45c.

HEARTS OF GOLD—A mid-season variety of exceptional merit. The fruits are of uniform shape. They are distinctly ribbed and covered with an attractive gray netting. The flesh is a beautiful salmon shade. It is very thick, ripens close to therind and of delicious flavor. Pkt., 10c $\frac{1}{4}$ lb., 50c.

Heart of Gold

MUSKMELONS (Continued)

JENNY LIND—An old favorite unusually early; small green fleshed; the fruit is round, flattened at ends, ribbed and netted. And the flesh is very attractive in flavor and quality. Pkt., 5c; $\frac{1}{4}$ lb., 45c.

ROCKY FORD—It is of the netted gem type. Oval in shape, averaging from four and one-half to five inches in length of a rich flavor and very fine and smooth grain. Flesh is of a light green color throughout when ripe and very popular. Pkt., 5c; $\frac{1}{4}$ lb., 35c.

WATERMELONS

KLECKLEY'S SWEET—A large oblong melon, 20 inches in length with dark green rind, which is only about $\frac{1}{2}$ inch thick. The scarlet flesh is sweet and sugary and is of such texture that it leaves no strings of pulp whatever in eating. Is better for home use than for shipping and we believe it is the best table melon grown. Pkt., 5c.— $\frac{1}{4}$ lb., 30c.

Kleckley's Sweet

COLE'S EARLY—For a sure cropper this variety is the best. Medium size, color green with lighter stripes. Flesh is bright red of fine texture, sweet and very juicy. Pkt., 5c. $\frac{1}{4}$ lb., 30c.

NEW WINTER—Has light green rind with clear bright red flesh. If stored in a cool dry place will keep until nearly the first of the year. Pkt., 10c. $\frac{1}{4}$ lb., 40c.

TOM WATSON—Fruits of this variety sometimes reach a size of 24 inches in diameter. The rind is dark mottled green, thin, but tough enough to endure shipping to very distant markets. The flesh is deep red and comes very close, about three fourths of an inch, to the rind. For the home or market garden, or for shipping, it is very popular. Pkt., 5c. $\frac{1}{4}$ lb., 30c.

ONIONS

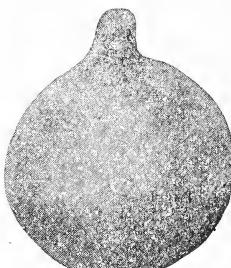

LARGE RED WETHERSFIELD—This is the old standard variety. Makes a large sized flat onion and the flesh is a purplish white, moderately fine grained and strongly flavored. For markets demanding a red onion this is the variety to grow as it matures early and is productive. Pkt., 10c. $\frac{1}{4}$ lb., \$1.50.

SOUTHPORT WHITE GLOBE—Commands the highest market price; good shape, clear, white skin. The flesh is pure white juicy and sweet with a delightful mild flavor. Pkts., 10c. $\frac{1}{4}$ lb., \$2.50

PRIZE TAKER—Grows to be a very large onion, it is hardy, productive and a fair keeper. Outside skin is rich yellow, flesh is white, sweet and tender. They bottom well and are free from stiffnecks. Pkt., 10c; $\frac{1}{4}$ lb., \$1.75.

EBENEZER OR JAPANESE—The Onions are large and very mild. Somewhat flattened, have attractive yellow skin and firm white flesh of delicate flavor; very small top and ripens quite early for so large a variety. Pkt., 10c; oz., 40c.

WHITE PORTUGAL or SILVER SHIN—One of the best for summer and fall use grown. Mild in flavor and cannot be surpassed for young onions for table purpose and for pickling. Pkt., 10c; $\frac{1}{4}$ lb., \$1.75. See "Onion Sets" under "Sets and Perennial Onions."

Prize Taker

PARSNIPS

LONG SMOOTH OR HOLLOW CROWN—A great cropper, tender, sugary and considered one of the best for general cultivation. Roots are well developed and average about 12 inches long. Pkt., 5c; $\frac{1}{4}$ lb., 25c.

RADISH

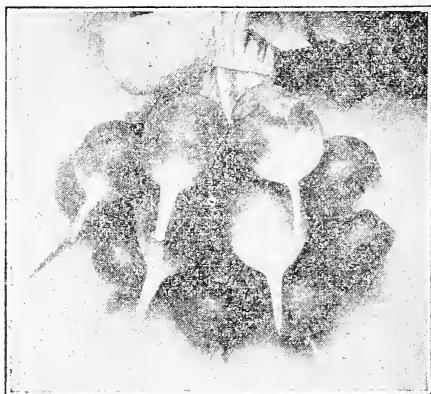

FRENCH BREAKFAST—Ready for use within 25 days after sowing seeds. Oblong shape, mild and tender. The skin is pink in color on the upper portion, lower part is pure white. Pkt., 5c; $\frac{1}{4}$ lb., 35c.

SPARKLER—This radish is very popular on account of its beautiful color, its quick growth and fine table qualities. The color is bright scarlet with a large white tip, covering fully one-third of the roots. This variety has small tops and is edible even when it gets large. Pkt., 5c; $\frac{1}{4}$ lb., 40c.

ICICLE—This variety has short leaves and makes its growth quickly. Attains its best quality at about four inches long and is of transparent whiteness. It is of most excellent flavor and remains crisp long after most other sorts would be discarded as too big and tough. Pkt., 5c; $\frac{1}{4}$ lb., 35c.

CRIMSON GIANT—Suitable both for forcing or early planting out of doors. In shape it is roundish oval and very attractive. The flesh is mild and tender. Grows to larger size than any in this class, yet retains its crispness and delightful flavor. Pkt., 5c; $\frac{1}{4}$ lb., 45c.

WHITE CHINESE OR CELESTIAL—Splendid for late fall and early winter use. Roots globeshaped extra large and even when fully developed (growing sometimes to 6 inches in diameter) the Radishes are solid, crisp and of a mild flavor. Skin and flesh pure white. Pkt., 10c; $\frac{1}{4}$ lb., 50c.

French Breakfast

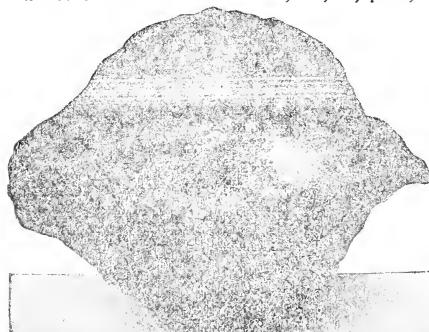

PARSLEY

CHAMPION MOSS CURLLED—A compact growing densely curled variety of a dark green color, very popular for garnishing. Pkts., 5c.

SQUASH

MAMMOTHWHITE BUSH—A very early summer squash. It is flattened and scalloped, comparatively smooth on the surface and creamy white in color. The flesh is thick and very fine in quality. Pkt., 5c; $\frac{1}{4}$ lb., 35c.

GIANT SUMMER CROOKNECK—An improved variety as early as the common Crook-neck and much larger, sometimes attaining length of two feet. It is heavily warted and of bright golden color. The plants are bushy and very prolific. The squashes are brittle and tender. Pkt., 5c; $\frac{1}{4}$ lb., 45c.

IMPROVED HUBBARD—The standard winter squash more extensively grown for the market than any other variety. The fruits are large, heavy and moderately warted. The shell is a dark bronzegreen with bright yellow flesh that is fine grained, dry and sweet. Its quality is the standard of excellence. Pkt., 5c; $\frac{1}{4}$ lb., 40c.

TABLE QUEEN OR DES MOINES—A small, very productive variety of many desirable qualities. The thin shell is ribbed and a very dark green in color. The rich golden flesh is very thick, of a very fine grain and the seed cavity small. A good keeper, the quality is excellent. Pkt., 10c; $\frac{1}{4}$ lb., 50c.

SALSIFY OR VEGETABLE OYSTER

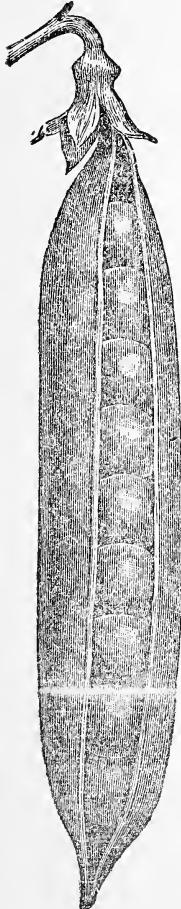

MAMMOTH SANDWICH ISLAND—The largest, smoothest and the very best in every way of all salsify. Pure white, very tender and of excellent quality. Pkt., 10c.

SPINACH

LARGE LEAVED VIROFLAY—Hardy and early with large tender fleshy leaves. The leaves are attractively curled and remain in prime condition for a long time. Pkt., 5c.

PEAS

Peas can be sown as early as the ground can be worked. Most of these varieties we are offering are early maturing and rather dwarfish and do not necessarily need a trellis or support to grow upon.

ALASKA—An extra early hardy pea. Pods of perfect shape, well filled with smooth peas of unrivalled quality. Height 2½ feet. Pkt., 5c; ½ lb., 20c; 1 lb., 35c.

LAXTONIAN PEA—The ideal variety for the small home garden where space is at a premium. Laxonian grows but 18 inches high, but the vines are exceedingly vigorous and produces the largest pods of any of the early sorts. Pods average 4 inches long and are uniformly well filled with 8 deep green, large peas, of delightful flavor. Since it is quite hardy it may be planted about the same time as the hardy smooth-seeded varieties. Pkt., 5c; ½ lb., 25c; 1 lb., 45c.

LITTLE MARVEL—We consider this the sweetest of all early peas, and it bears heavy crops of 3 inch long deep green pods mostly borne in pairs. Every one of these pods, however, contains 8 of the largest, deepest green peas you ever saw, so large in fact that you wonder how they ever fitted into the small pod to begin with. The vines grow about 18 inches in height. Pkt., 5c; ½ lb., 25c; 1 lb., 45c.

PROSPERITY OR GRADUS—One of the very best of the large podded kinds. The pods are immense in size, liberally filled and bear in great profusion. The quality and flavor is delicious and is the market gardeners favorite. Pkt., 5c; ½ lb., 25c; 1 lb., 45c.

SUTTON'S PIONEER—The plants are dwarf, growing about 14 inches high, sturdy and exceedingly productive and the quality is very fine indeed. The color of the peas is a light green and it bears the largest pods of the low growing wrinkled Peas. Pkt., 5c. ½ lb., 25c; 1 lb., 45c.

POTATOES—SEND FOR PRICES AND VARIETIES.

PEPPERS

CULTURE—Sow the seed in hotbed or boxes in the house and when all danger of frost is past, transplant in the open ground. Seeds are slow to germinate. See Pepper Plants under "Vegetable Plants."

HARRIS EARLIEST—We have grown this variety for years and find it the finest pepper we ever raised. The plants are dwarf and compact, with fruits, averaging $3\frac{1}{2}$ inches in length by 2 and one-half inches through. The flesh is thick and mild and sweet and the earliest of all peppers. Pkt., 10c.

PUMPKINS

SUGAR—A handsome and prolific variety of small size; the skin is a deep orange yellow. It is fine grained in flesh, sweet in taste and an excellent keeper. Pkt., 10c; $\frac{3}{4}$ lb., 35c.

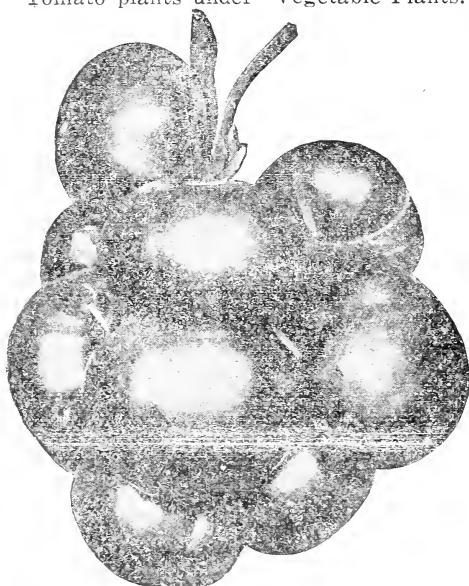

JAPANESE PIE—Skin deep green with dark stripes; seeds are marked with curious indentations; of the finest quality; good keeper. Pkt., 10c; $\frac{1}{4}$ lb., 40c.

LARGE CHEESE OR KENTUCKY FIELD—Large round, flattened fruits, much ribbed and creamy buff in color; flesh yellow and very deep; of fine quality and one of the best canning sorts. Pkt., 5c; $\frac{1}{4}$ lb., 30c.

CONNECTICUT FIELD—An immensely productive, large orange colored field pumpkin, usually grown for stock feeding, but also making good pies. Pkt., 5c; $\frac{1}{4}$ lb., 30c.

TOMATOES

Tomatoes succeed best in fairly rich soil. For early plants sow seed in boxes or hotbeds in March. Set out of doors as soon as danger of frost is over. Transplant four feet apart each way and cultivate as long as vines will permit. See Tomato plants under "Vegetable Plants."

John Baer

JOHN BAER—A splendid early tomato which is an improvement of the Earliana producing beautiful, large, red, solid fruit early in the season. Is an excellent solid shipping tomato which ripens early right up to the stem and in an enormous cropper and when dead ripe will not burst. It has a mild, deliciously sweet flavor. Almost seedless and an enormous stem setter. It is solid and meaty and has just enough foliage. Will stand plenty of manuring without going to vine. We have grown this variety for years and consider it one of the very best tomatoes. Pkt., 10c; Oz., 35c.

EARLIANA—One of the earliest varieties. Flesh bright red. Vines bear very heavy and is considered one of the best all around tomatoes grown. Pkt., 10c. Oz., 30c

PONDEROSA—This is the appetizing Crimson Cushion Ponderosa. Color brilliant scarlet crimson. The perfect shaped fruit is of enormous size and very delicious. Pkt., 10c.

LIVINGSTON'S GLOBE—Large globe shape, always smooth, firm fleshed. With few seeds and ripens evenly. The color

is light red, tinged with purple. Matures medium early and is a great favorite. Pkt., 10c.

YELLOW PEAR—Fruits a clear, handsome yellow. Very sweet and free from acid. Fine for salads or marmalade. Pkt., 10c.

TURNIPS

EARLY WHITE FLAT DUTCH—An excellent extra early, flat turnip. Strap leaved, mild flavor, fine quality. To be at their best should be used when small as they are more tender. Also grown for a fall crop. Pkt., 5c; $\frac{1}{4}$ lb., 30c

PURPLE TOP WHITE GLOBE—One of the standbys and is mild and of good quality. Perfect globe shape and more generally planted than any other variety. We highly recommend it. Pkt., 5c; $\frac{1}{4}$ lb., 25c.

RUTABAGAS

IMPROVED AMERICAN PURPLE TOP—This is very uniform shape and fine quality and is a splendid keeper. The roots grow to a large size, have small tops, short necks and smooth skin; flesh is beautiful yellow, fine grained, very sweet, tender and of excellent flavor. Pkt., 5c; $\frac{1}{4}$ lb., 25c.

ONION SETS

RED, WHITE AND YELLOW BOTTOM SETS—Fine, well cured and well grown sets, either sort. Pt., 20c; qt., 30c; $\frac{1}{2}$ pk., 85c; Postpaid.

TOP OR WINTER ONION SETS—Perennial. Live in the ground all winter and start very early in the spring. Pt., 25c; qt., 40c postpaid.

HERBS

CARAWAY—Used for flavoring and pastry. Pkt., 10c.

DILL—Used for pickling cucumbers. Pkt., 10c.

FREE—For every dollar's worth of garden and flower seeds ordered, pick out 15c more of any kind as a premium.

VEGETABLE PLANTS

CABBAGE

EARLY JERSEY WAKEFIELD—The standard early cabbage.

COPENHAGEN MARKET—Extra fine for early and mid-season.

DANISH BALL HEAD—Late and best winter keeper.

Price per doz.. 25c; 50 for 75c; 100 for \$1.25, postpaid.

TOMATOES

EARLIANA—The old reliable early variety.

JOHN BAER—The best all around tomato grown.

Per doz., 35c; 50 for \$1.35; 100 for \$2.20 postpaid.

FLOWER PLANTS

ALYSSUM OR CARPET OF SNOW—The best white edging plant. 50 for 75c; 100 for \$1.15, postpaid.

ASTERS—Fine for late summer and early fall blossoms. Mixed, per dozen postpaid 35c

PANSY—Thrive best in a protected partial shady place. Mixed per dozen postpaid75c.

GERANIUMS—Mrs. Nutt, finest of the reds. Each 25c; per 10, \$2.00.

PETUNIAS—No flower has any showier blossoms; so cheerful all summer. Per dozen, postpaid50c.

CANNA KING HUMBERT—Orange, scarlet flowers, immense bronze leaves. Each 15c. Per dozen, dormant roots, postpaid \$1.50

Flower Seeds

Flowers are nature's expression of all that is beautiful. Nothing grown or made gives the genuine satisfaction as their association. Nothing delights the eye and pleases the average person more than the many hues and colorings that the blossoms have. An artist can paint beautiful scenes and lovely are the productions, but there are few of nature's tints that can be copied; the subtle blends and ethereal colorings must be grown, and they give so freely with such little effort.

Flowers have come first with us and we have given the growing of them particular attention. We have listed the varieties that are especially suited to northern conditions and we know you will be rewarded by pleasures unbounded to grow them.

So that the seeds will germinate readily and the plants grow and flower to perfection, attention should be paid to the soil condition and especially if small seeds are sown. The ground should be worked up well and if the soil is heavy lightened up with well rotted manure or sandy loam. If this is not done the soil is apt to become hardened or baked before the tender plants get large enough to take care of themselves. Small seeds must not be planted deep and most flower seeds germinate better if planted near the surface. Sweet peas, sunflowers, beans and some of the larger seeds can be planted fairly deep.

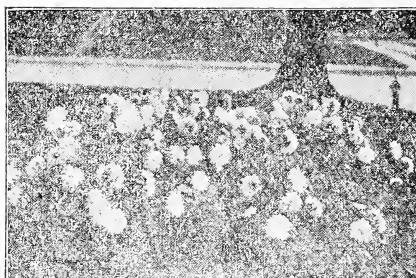

PREE—For every dollar's worth of garden and flower seeds ordered, pick out 15c more of any kind as a premium. We prepay postage on all flower seeds.

ALYSSUM OR CARPET OF SNOW

ALYSSUM OR CARPET OF SNOW—Dwarf and compact, grows about 4 inches high. The plants are a solid mass of white from early summer to late fall and is considered the best white flowering edging or border plant. Pkt., 10c.

ASTERS

QUEEN OF MARKET—Asters are a most valuable type for bedding as well as cutting, as they are the first to come into bloom. Plants grow quite tall and they branch freely near the ground, giving long stems to the flowers. The blooms are well rounded and double. They are of medium size and come in many colors and are very popular for bouquets. Pkt., 10c; $\frac{1}{4}$ oz., 40c.

CREGO GIANT COMET—One of the finest and largest of the Comet Asters, bearing immense fluffy flowers as fine as any Chrysanthemum. All colors. Pkt., 10c. See Aster Plants under "Flower Plants."

DOUBLE BALSAM or LADY SLIPPER

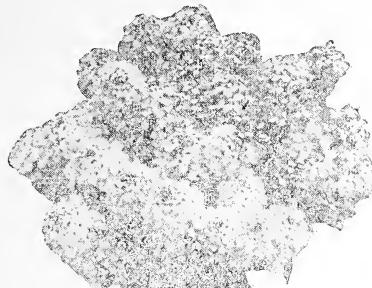

DOUBLE BALSAM OR LADY SLIPPER—An old favorite, producing its gorgeous masses of beautiful and brilliant colored flowers in the greatest of profusion. Pkt. 10c

CALENDULAS

One of the dependable hardy annuals that have a wonderful profusion of flowers, colors ranging from ivory to orange. Valuable for bed and borders. Bloom until late fall and are well adapted for outdoor culture. Pkt., 10c.

CALLIOPSIS

CALLIOPSIS—Excellent for cutting and massing. Colors golden yellow and maroon. Very showy, beautiful and free flowering. Pkt., 10c.

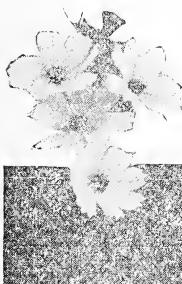

CANDYTUFT

These belong among the most useful of hardy annuals. The plants bear neat clusters of flowers in great profusion. A most attractive border and cut-flower, blooming profusely in cool weather. Sow early in the spring; 12 inches high.

'One of the best annuals for vase flowers. Plants very bushy and the showy flowers are very attractive. Pkt., 10c.

CENTAUREAU or ROYAL SWEET SULTANS

CENTAUREAS OR ROYAL SWEET SULTANS—The charming sweet scented flowers are borne on long strong stems and are exceedingly fine for cut flowers. Sow seed in the garden reasonably early. Pkt., 10c.

COSMOS

Beautiful summer and autumn blooming plants. They produce such a quantity of artistic flowers in pure white, pink and crimson shades, furnishing an abundance of cut blooms for autumn decorations when other flowers are scarce. Should be sown in Spring in the open ground, when danger of frost is past. Thin out so plants are 18 inches apart. When a foot high the tops should be pinched out to induce a bushy growth. They prefer a rather light, not too rich soil, but do well almost anywhere. The colors we have are Crimson, Pkt. 10c; White, Pkt. 10c. Pink, Pkt., 10c. or Mixed Colors, Pkt., 10c; $\frac{1}{4}$ oz., 25c.

DAISY

DAISY-AFRICAN—A handsome showy annual Daisy and which presents a magnificent sight when in bloom and which last through the latter part of the summer and fall. Fine for cut flower purposes. Pkt., 10c.

GAILLARDIA

Blanket Flower. Splendid showy annuals, remarkable for the profusion and brilliancy of their flowers, continuing in bloom from early summer till November; extra fine for beds, borders, or for cutting; should be sown where they are to bloom; 1 $\frac{1}{2}$ feet. Pkt., 10c; Oz., 35c.

HOLLYHOCK

One of the most majestic of hardy plants and a clump or line of our dependable varieties in any garden gives an effect not attainable with any other plant. For planting among shrubbery or forming a background for other flowers, it is without equal. This is a biennial and blossoms the second year. Sow some each year and enjoy these fine varieties. Double Mixed, Pkt., 10c; $\frac{1}{4}$ oz., 35c. Single Mixed, Pkt., 10c; $\frac{1}{4}$ oz., 35c.

MARTYNIA

MARTYNIA OR DEVIL'S CLAW—A fast growing compact and thick leaved plant. The flowers are light purple and very floriferous, in fact about the sweetest scented flower that grows. Seed pods are good for pickles if picked when young and tender. A garden oddity. Pkt., 10c.

MIGNONETTE

MIGNONETTE—Victoria Perfecta with its brilliant spikes is one of the big attractions of any planting. No garden is complete without this fragrant favorite. Pkt. 10c.

LARKSPUR

LARKSPUR

Or Delphinium. The Annual Larkspur furnishes one of the best and most satisfactory blossoms in the whole range of annuals. Colors are so soft and satisfactory and make such attractive bouquets. Our mixture is sure to please.

Pkt. 10c; $\frac{1}{4}$ oz., 25c.

MARIGOLD

The Marigolds never fail to attract attention and are so easily raised and adapt themselves so readily. Really an optimist among the flowers that radiate cheer. Our mixture is fine when assembled with the blue of Larkspur or the paler tints of Cornflower, the contrast is so pleasing. Pkt., 10c; $\frac{1}{4}$ oz., 25c.

NASTURTIUMS

TOM THUMB OR DWARF—These bedding nasturtiums are probably the best varieties grown. They are easy to grow and the brilliant blossoms are lasting. Plant in a moderately good soil in a sunny location, until cut down by frost they will bear a profusion of gorgeous blossoms. Pkt., 10c; per oz., 15c.

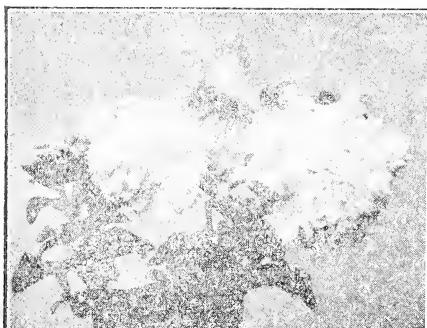

GIANTS OF CALIFORNIA—Are the tall growing, ever blooming Nasturtiums rich in color and can be used to cover a trellis, fence or trailing over rock work. Pkt., 10c; Per oz., 15c.

PINKS

PINKS—The blossoms which come in varied colors are sweet, spicy scented, and are like miniature carnations. Foliage is dense and fine and it is considered a most satisfactory garden flower. 10c

PANSY

The latter part of April is the best time for spring sowing, producing flowers by the last of June and continuously until fall. A well enriched, finely worked soil is best. Seed should be covered not over four times its own depth and takes about 10 days to germinate. When the plants are sufficiently developed, transfer to desired location. Pansies will do well in partial shade. Many people start them in hot-beds or in boxes in the house several weeks before the probable earliest planting time. Pkt., 10c; $\frac{1}{4}$ oz., 40c. See Pansy Plants under "Flower Plants."

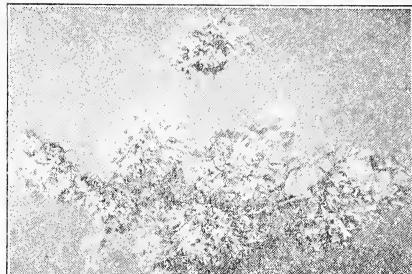

PETUNIA

For outdoor decoration, porch or window boxes few plants equal the Petunia in effectiveness. They commence flowering early and continue a sheet of bloom throughout the whole season until killed by frost; easily cultivated but likes good soil and sunny positions. It is best to sow them indoors and transplant to the open in late May. The Single Bedding kinds can be sown out of doors in May. Our mixture is an extra fine one. Pkt., 10c; $\frac{1}{4}$ oz., 35c. See Petunia Plants under "Flower Plants."

POPPIES

Double Peony shaped Poppies are so easily grown that they should be in every garden. The plants grow quickly and produce a wealth of gorgeous blossoms. Sow the seed thinly early in the spring where the plants are to bloom. The seeds should be barely covered from view. The flowers are excellent for vases because if picked when the buds are just beginning to open they will last a remarkably long time as cut-flowers. Pkt., 10c; $\frac{1}{4}$ oz., 25c.

CALIFORNIA POPPY—The golden satin like flowers are brilliant and beautiful. The foliage is fine and blue green in color. Grows about 12 inches high and there is no flower that attracts more attention than these. Cut the flowers in the bud if used for vase purposes. Pkt., 10c.

SHIRLEY POPPY—This type is perhaps the most beautiful of all poppies; one sowing keeping the bed alight all summer. Mostly come single or semi-double. The colors range from white, turn various shades of pink, to scarlet and deepest crimson. Mixed, Pkt., 10c; $\frac{1}{4}$ oz., 30c.

STRAWFLOWERS

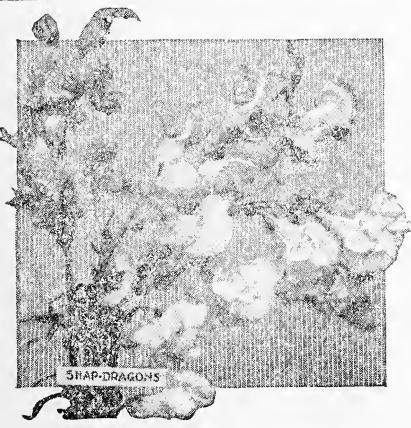

Strawflowers are easy to grow and do well in nearly any location. They do best if planted where they get sunlight all day long. A moderately moist soil which is fairly rich produces the finest plants and largest flowers.

Sow the seed outdoors and cover with $\frac{1}{4}$ inch of soil. The seeds will germinate in about 2 weeks after planting and when the young plants are about 2 inches high it is best to thin them out so they will be about 10 inches apart. The plants make a strong upright growth and bloom profusely during late summer and fall.

Strawflowers are in great demand not only for the fine effect they give in beds and borders, and as cutflowers, but also because they can be dried for winter bouquets. Cut the flowers early in the morning while the dew is still on them and hang them heads down in a cool, shady and airy place until thoroughly dry. Pkt., 10c; $\frac{1}{4}$ oz., 25c.

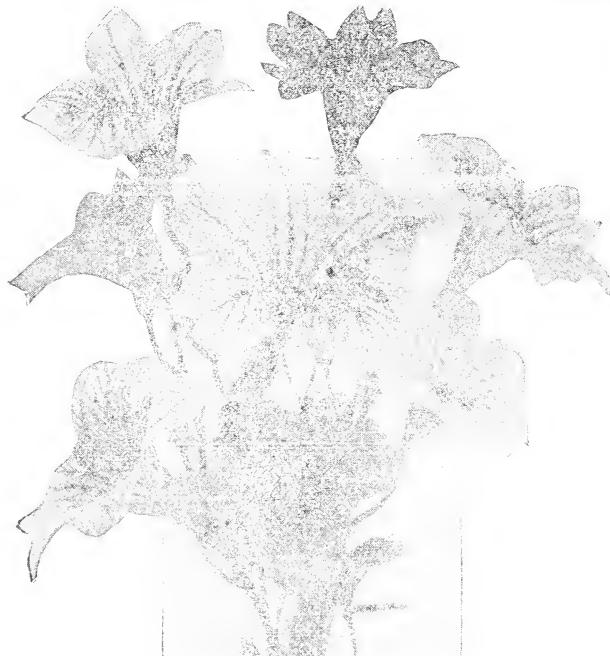

SUNFLOWERS

The annual Sunflowers are indispensable for cutting. Sown on a sunny spot about May first they come into bloom early in summer and keep up a constant supply of flowers until cut down by frost. Pkt., 10c.

SNAP DRAGONS

Snap dragons are very popular bedding plants; the richness and diversity of colors, their long blooming season giving them great value for garden color masses, as well as for cutting. They have dark and glossy leaves and curiously pea shaped flowers with marked throats. They bloom in July from seed sown in early May, but for earlier bloom, seed should be started indoors during March. Does best in dry loamy soil. Pkt., 10c; $\frac{1}{4}$ oz., 30c.

SALPIGLOSSIS

Painted Tongue. These are one of the finest annuals, and readily grow in any ordinary soil in a sunny position. The plants grow about 24 inches high and produce freely from mid-summer until frost. The most attractive and stunning blossoms in a very large and unusual range of colors. They are splendid for cutting, last well. Seed may be started indoors or in a hotbed about the end of March or sown outdoors when danger from frost is passed and the ground is in condition. For best results the plants should not be set closer than 12 inches apart.

Pkt. 10c; $\frac{1}{4}$ oz., 40c.

SWEET PEAS

The whole world loves the Sweet Pea and especially the exquisite new Spencers. We are offering the far famed Silver Gilt Medal varieties, the blossoms of which are extra large and colorings magnificent. It is our experience to plant the new Spencers to the exclusion of all other varieties and the rich returns make them by far the cheapest seed to sow. Plant seeds as early as the ground can be worked. A good way is to make a trench 3 inches deep and plant seeds one inch deeper in the trench and gradually fill in the trench as the season advances. Water or irrigate and pick blossoms regularly and you will enjoy bouquets until hard frosts come.

MARGARET ATLEE—Is one of the very finest rich buff pink, a giant in size.

FLORENCE NIGHTINGALE—Is a favorite large pure lavender.

KING WHITE—Is without question one of the very best of the large pure whites.

MRS. TOM JONES—Is a large exquisite delphinium blue.

ROYAL SCOT—Is considered one of the largest and most brilliant scarlets ever grown.
Price of all Sweet Peas Pkt., 10c; Per oz., 35c.

MIXED SPENCERS—A splendid mixture of all the desirable new orchid flowering Spencers. Pkt., 10c; per oz., 30c.

FINE MIXED—This is the common Sweet Pea and which we are offering to those that do not care for the Spencer or large flowering varieties. Pkt., 5c; per oz., 15c.

ANNUAL VINES

BALLOON VINE OR LOVE IN A PUFF—Is a rapid climber; flowers white. The interesting seed pods look like miniature balloons. Pkt., 10c.

CASTOR OIL BEAN—A luxuriant foliage plant of rapid growth, the palm like leaves often measuring three feet across giving a tropical effect. Pkt., 10c.

CYPRESS VINE—Has a delicate fern like foliage and masses of beautiful scarlet and white flowers. Seeds should be soaked in warm water for a few hours before planting. Pkt., 10c.

GOURLDS—These are used generally as annual climbers or can be planted in the garden. They bear fruits known as ornamental gourds and come in many different fantastic shapes and colors. Mixed Pkt., 10c,

MORNING GLORY—The old favorite climber with their brilliant and beautiful flowers cannot be surpassed. Soaking the seeds a few hours in warm water will hasten germination. Pkt., 10c.

SCARLET RUNNER BEANS—A favorite ornamental annual climber. The scarlet colored blossoms are very attractive. The beans that follow are excellent eating. Sow the seeds after danger of frost. Pkt. 10c.

HYACINTH BEAN—A rapid growing annual climber, climbing to about eight feet. They bloom freely in large, upright racemes of pea-like flowers, either white or purple; followed by ornamental purple seed pods. Sow about May 15th or after danger of frost. Mixed, pkt., 10c; $\frac{1}{2}$ oz., 15c:

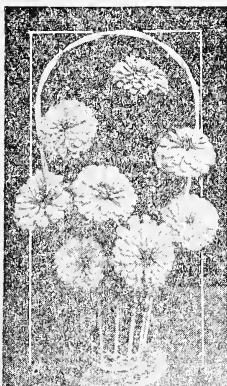

VERBENIA—No planting seems quite complete without these old reliable and cheerful blossomers. Pkt., 10c.

ZINNIA

There are few flowers that are more popular than the large flowering double Zinnias and no flower is as showy during the late summer and early fall. Easy of culture as the seed can be sown where the plants are wanted and they will continue blossoming long after light frosts. No flower stands the hot sunny condition any better. Fine for massing.

Ipswich is noted for its Zinnias and the Zinnia beds have attracted a great deal of attention the past few years.

Price for our Giant Grandiflora flowered mixture, 10c pkt., $\frac{1}{2}$ oz., 40c.

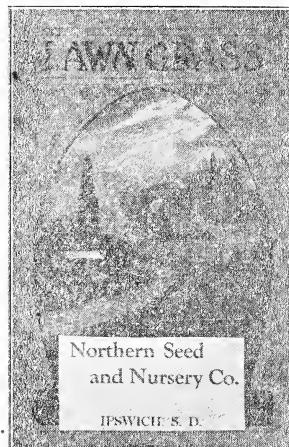

Double Zinnia

LAWN GRASS

Our lawn grass is pure Kentucky Blue Grass. No mixture of old seed or substitutes. It is fancy heavy 1925 seed and is the best that can be bought.

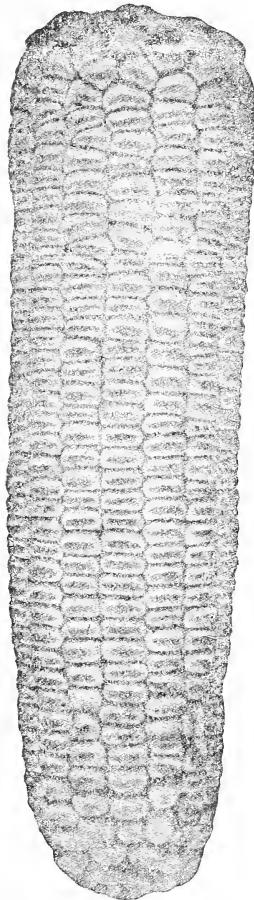

To get a good stand, buy our pure Kentucky Blue Grass and after sowing it broadcast, rake in the seed and keep the surface damp until the grass shades the ground. Price 1 lb., 65c; 10 lbs., 55c per lb.

FREE—For every dollar's worth of garden and flower seeds ordered, pick out 15c more of any kind as a premium.

Farm Seeds

DENT CORN

We wish we could give more space to seed corn, as it is something of vital importance to the growers of the northwest. By that we mean good seed corn, well bred up and seed that has been properly handled.

Our seed plant we aim to make the best in the northwest. Three stories and basement will give us the room to do this. On the top floor we dry and cure our seed corn. This is an ideal place as it is airy and warm in the fall when it is absolutely necessary to dry the seed before freezing weather comes.

Good seed corn is cheap at any price. Even if the seed is a gift, a few missing hills every row makes it expensive seed. We cautioned everyone in our 1925 catalogue "Not to depend for their main crop on the late maturing varieties" and we still think that we should depend upon the early maturing and acclimated seed corn for the main crop and if one wishes to speculate, plant an acreage to the late or large varieties and if these do not mature it can be cut up for fodder purposes. Corn grown in the north where the early maturing ears are selected for seed is the seed to tie to.

FULTON'S YELLOW DENT—This variety we have was selected for years for earliness and it is this strain that has taken most of the prizes at the corn shows for the past few years. Has a deep kernel and is a heavy yielder.

Price per bu. \$4.50; 3 or more bu. \$4.25 per bu

MINNESOTA NO. 13—Originated by the Minnesota Agricultural College. An extra good corn for silage and a heavy yielding yellow dent. This strain has been selected for earliness and will mature much earlier than average Minn. No. 13.

Price per bu. \$4.50; 3 or more bu. \$4.25

SOUTH DAKOTA NO. 86—This is a selection of the Minn. No. 13 by the S. D. Experiment Station. We have grown this variety for the past six years and believe it is one of the best yellow dents. Matures early and is like its parent in every way except that the ears are a trifle smaller.

Price per bu. \$5.00; 3 or more bu. \$4.50

WIS. COLD RESISTANT—A selection of the Golden Glow made by the Wis. Experiment station. This corn has been bred for hardiness as to early planting, withstands cold and wet ground conditions and can be planted much earlier than the average corn. Our own grown. Price per bu. \$4.50; 3 or more bu. \$4.25 per bu:

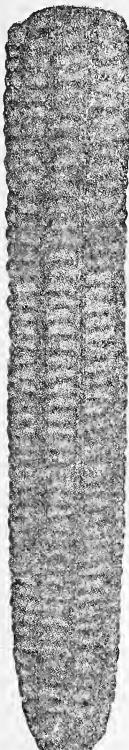

NORTHERN YELLOW DENT—A very early maturing corn. Not as pure as the above varieties but for late season or for replanting cannot be beaten. It has never failed to mature a crop here. Price per bu. \$4.50; 3 or more bu. \$4.00 per bu.

NORTHERN WHITE DENT—A variety that has been grown here for years and never fails. Good for hogging off purpose. Not pure white dent but a corn that has been selected for years for earliness. If cutworms take your first planting, replant with this variety or the Nor. Yellow Dent. Price per bu. \$4.00; 3 or more bu. \$3.50 per bu;

NORTHWESTERN DENT—An extra early red dent, planted very extensively. Matures early and is a very satisfactory and popular corn.

Price per bu. \$4.50; 5 or more bu. \$4.25 per bu.

NORTHERN SEED AND NURSERY COMPANY, IPSWICH, S. D.

FLINT CORN

RAINBOW FLINT—The most popular flint corn grown. Grows an extra large ear high on the stock. One of the best of the fodder corns. This strain has been grown here for many years and has matured here every year.

Price per bu. \$5.00; 3 or more bu. \$4.50 per bu.

WHITE FLINT—An early maturing large yielding white flint. Fine for hogging off.

Price per bu. \$5.00; 3 or more bu. \$4.50 per bu.

MIXED FLINT—This is a heavy yielder of large long ears. Good for hogging off.

Price per bu. \$4.50; 3 or more bu. \$4.00 per bu.

SQUAW FLINT—This is the old reliable mixed flint that has been the standby for hogging off. Ears grow close to the ground.

Price per bu. \$4.50; 3 or more bu. \$4.00 per bu.

SWEET CORN

GOLDEN BANTAM SWEET CORN—Nothing quite equals Golden Bantam for table use. Can be planted early and one of the sweetest of the sweet corns. Our own planting. See Garden Seeds.

Price per pound, 25c; 10 pounds, \$2.00; 50 pounds, \$7.50.

BANTAM EVERGREEN—One of the very finest of the medium early sweet corns. Sweet, tender and delicious. 1 lb., 30c; 10 lbs., \$2.50;

POP CORN

WHITE RICE—Raised locally. The standard popular corn, easy to raise and a good yielder.

Price per pound, 15c; 10 pounds, \$1.25; 50 pounds, \$4.00.

Popping Corn. Write for low price.

JAPANESE HULLESS—The finest of the pop corns. The kernels when popped are large and clear white. Very popular.

Price 25c per pound; 10 pounds \$1.50.

THE NEW BURBANK—A new creation by the plant wizard. Pops out pure white, is very sweet and of immense size. On account of its sorgum parent, it will grow on poor land and will withstand droughty conditions. Pkt., 10c; 1 lb., 75c.

WHEAT

Wheat although an alluring crop is one of the essential small grains for the northwest. It is the cash crop and tides over the grower until he can realize on his stock and other produce.

It pays to sow as early as the ground can be worked in the spring and to sow varieties that are rust proof and rust resistant, especially for the main crop. All our seed is run through the new Carter Disc Separator to remove any wild oats or other impurities and is ready to sow.

BURBANK OR QUALITY—The new earliest maturing wheat grown. Ripens before danger of rust. Write for prices. Mention quantity wanted.

KOTA WHEAT—This strain of hard wheat was originated by the N. D. Agricultural Station and is very rust and drought resistant; a high yielder and the most popular wheat grown in N. Dak. Price per bu., \$2.75; 5 or more bu., \$2.25 per bu.

MARQUIS WHEAT—The best of the milling wheats but subject to rust. Should be sown as early as possible. Price per bu., \$2.50; 5 or more bu., \$2.25 per bu.

PEARSON 999 AMBER DURUM—An improvement of the Kubanka and the best of the durums. An enormous yielder and a good rust resister. The seed we are offering we grew ourselves and it outyielded all other spring varieties.

Price per bu., \$2.50; 5 or more bu., \$2.25 per bu.

RED DURAM—One of the most rust resisting wheats grown. Can be sown later than any other variety. Is a sure and big yielder.

Price per bu., \$2.25; 5 or more bu., \$2.00 per bu.

KANRAD WINTER WHEAT—Must be sown in the fall. Write for price after harvest.

SPELTZ

One of the very best all around feeds grown and especially for poultry and horses. Price \$2.75 per 100 lbs.; \$2.25 per 100 lbs. in 500 or more lots.

NORTHERN SEED AND NURSERY COMPANY, IPSWICH, S. D.

BARLEY

This is the Odessa strain and one of the best yielding barleys grown. Price per bu. \$1.25; 5 bu. lots, \$1.15 per bu.; 10 or more bu., \$1.00 per bu;

OATS

HULLESS OATS—A new variety that is becoming quite popular. Threshes out like wheat or rye and when ground makes one of the best concentrated foods for young pigs and calves. It is a good yielder of the richest kind of feed, and very high in protein content. Price per bu., \$1.50; 3 or more bu., \$1.25 per bu.

SIXTY DAY OR KERSON OAT—Recommended by the experiment station for the main crop. Matures and ripens usually before the wild oats do. A good yielder and the surest variety to grow if the season happens to be a little dry.

Price per bu., 85c; 10 or more bu., 65c.

SWEDISH SELECT OATS—One of the very best medium early oats grown. An enormous yielder of large plump kernels.

Price per bu., 85c; 5 bu., 65c each; 10 or more bu., 60c per bu.

MILLET

If millet is sown on old land it should be plowed and dragged early. Then after the weeds start the land should be disced and dragged before the seed is sown. If the land is extremely weedy and the season is not too late it will pay to disc and drag the second time after the weed seeds start growing the second time.

BROOM CORN—The standard millet grown for seed production. Very high feeding value for hogs, cattle and poultry. A good drought resister. Price 1 lb., 20c; 10 lbs., 75c; 50 lbs., \$1.75; 100 lbs., \$3.00; 200 lbs., \$5.50.

EARLY FORTUNE—Quite similar to Broom Corn millet except that the seed is red. One of the best of the millet family. Seed excellent for stock and poultry and the fodder after threshing is the best of feed. For hay purposes much better than Broom Corn millet as it does not grow as coarse.

Price per lb., 20c; 10 lbs., 75c; 50 lbs., \$2.00; 100 lbs., \$3.25; 200 lbs., \$6.00.

GERMAN MILLET—One of the very best for hay purposes. Southern seed. Price 10 lbs., \$1.00; 50 lbs., \$2.75; 100 lbs., \$4.75.

JAPANESE—Sometimes called billion dollar grass. Makes a heavy growth and in moist seasons will cut two or more crops. Is better for horses than the other millets. Price 1 lb., 25c; 10 lbs., \$1.25; 50 lbs., \$3.00; 100 lbs., \$5.50.

SIBERIAN—The most popular millet for hay purpose. A good drouth resister. Not only makes splendid hay but is a reliable seeder.

Price, 1 lb., 25c; 50 lbs., \$2.25; 100 lbs., \$3.50; 200 lbs., \$6.00.

RUSSIAN OR SERBIAN MILLET—A new variety introduced lately. If sown in rows and cultivated the heads will measure from 12 to 15 inches long yielding an enormous amount of seed. On account of the seed being about the same size as pigeon grass it must be sown on clean land or sown in rows and cultivated.

Price, pkt., 10c; 1 lb., 50c.

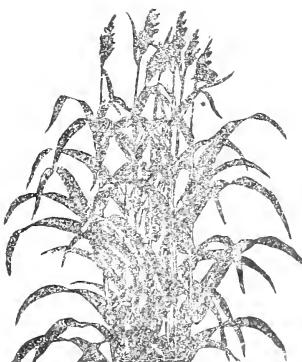

CANE

Probably the most profitable and popular forage crop grown. It yields an enormous crop of succulent feed that is greatly relished by all stock. It can be broadcasted or drilled in and cultivated. The latter is the surest way to realize a big yield. It is the best drought resister grown. For best feeding value it should be cut when the heads commence to turn black. Sow 10 to 12 pounds when cultivated and about 50 pounds when broadcasted.

Price 10 lbs., 75c; 25 lbs., \$1.75; 50 lbs., \$2.50; 100 lbs., \$4.25
25c; 10 lbs., \$1.00; 25 lbs., \$2.00.

SUGAR CANE for making sorghum or syrup. Price per lb., 25c; 10 lbs., \$1.00; 25 lbs., \$2.00.
FETERITA—The most draught resisting sorghum grown, related to Kaffir. Excellent forage and seeds fine for poultry and stock. Sow 12 to 15 pounds if drilled and cultivated and 50 to 60 pounds if broadcasted.

10 lbs., 75c; 50 lbs., \$2.50; 100 lbs., \$4.25.

NORTHERN SEED AND NURSERY COMPANY, IPSWICH, S. D.

FLAX

This is the northern grown hardy variety and especially adapted to the northwest. Price per bu., \$4.00; 5 bu., \$3.50 per bu; 10 or more bu.; \$3.25 per bu;

BUCKWHEAT

Silver hulled, an improvement of the old sort. A great yielder. One of the best crops to grow to smother out weeds. Also fine for bees when in blossom. One of the very best of poultry feeds that is grown. Grow more buckwheat and make your own flour. Price per bu., \$2.50; 5 or more bu., \$2.25 each;

BROMUS GRASS

One of the very best pasture grasses grown, will stand more droughty conditions than any other variety and is an enormous yielder. Starts growing very early in the spring and will keep green, if pastured, the last in the fall. Highly recommended by all the experiment stations of the northwest. Sow about 20 lbs. to an acre.

Price, 5 lbs, 75c; 10 lbs, \$1.25; 50 lbs, \$5.00; 100 lbs, \$9.50.

SUDAN GRASS

This is one of the best forage plants grown. Can be grown to advantage on clean or new ground by sowing it broadcast or drilling it in and can be cut several times during the summer. It takes about four pounds to plant an acre if planted in three foot rows and we would be inclined to recommend planting it this way. Sow twenty to twenty-five pounds if broadcasted.

Price per lb, 25c; 5 lbs, \$1.00; 10 lbs, \$1.75; 20 lbs, \$3.00; 50 lbs, \$5.50; 100 lbs, \$10.00.

TIMOTHY

Is one of the standby hay crops. Does not stand much pasturing and is best suited to cut for hay. Timothy and clover is a rich combination and if any land is commencing to get worn out it will be greatly benefited by seeding down this mixture.

Price of Timothy, 1 lb., 25c; 10 lbs, \$1.50; 20 lbs, \$2.75; 50 lbs, \$6.00.

WESTERN OR SLENDER WHEAT GRASS

WESTERN OR SLENDER WHEAT GRASS—Is one of the very best hay grasses for the northwest. Very drought resisting and is relished by all stock. Where Kentucky Blue Grass cannot be grown to advantage try Slender Wheat Grass for lawn purposes. 1 lb., 25c; 10 lbs, \$1.50; 100 lbs, \$10.00.

ALFALFA

There is nothing that equals alfalfa hay. Good for all kind of stock including hogs and poultry and every farmer should have a field. Care should be taken not to pasture or cut it too late in the season.

DAKOTA GROWN—This is hardy northwestern South Dakota grown seed from old fields that have stood the severe winters and dry summers and is the variety that is generally more planted than any other. Known as Dakota No. 12. Price per lb, 40c; 10 lbs, 35c per lb; 20 lbs, 30c per lb; 50 lbs, 27c per lb; 100 lbs, 25c per lb.

GRIMM ALFALFA—Grown in northern South Dakota. The hardiest of all alfalfas. We are pricing this at a low figure this year and anyone figuring on a permanent alfalfa field should take advantage of this price and make a good planting. Price per lb, 65c; 10 lbs, \$6.00; 25 lbs, 50c per lb; 100 lbs, 45c per lb.

COSSACK ALFALFA—This is a hardy variety brought from Siberia by Professor Hansen. It is a good yielder and very cold and drought resistant. From a handful of seeds brought over a few years ago it now covers thousands of acres. It has a branching root system similar to Grimm. 1 lb, 75c; 10 lbs, \$6.00; 100 lbs, \$50.00.

RED CLOVER

RED CLOVER—Very valuable for forage and for plowing under for fertilizing purposes cannot be equaled. Price 1 lb, 60c; 25 lbs, 55c per lb; 50 lbs, 50c per lb.

SWEET CLOVER

WHITE BLOSSOM—Is one of the easiest of the clovers to get started and out yields any other variety for pasture purpose. Stock like it better when pastured close. It starts growing early in the spring and stays green until late in the fall. Another advantage, stock will not bloat on sweet clover. Sow about 10 lbs. to the acre.

Price for scarified northern grown seed 1 lb, 25c; 10 lbs, 15c per lb; 20 lbs, 14c per lb; 50 lbs, 13c per lb; 100 lbs, 11c per lb; 200 lbs, 10c per lb.

YELLOW BLOSSOM—Has a finer foliage and is more dwarf than the white blossom variety and probably makes a little better hay. It can also be pastured a little closer than the other varieties. Price per lb, 25c; 10 lbs, 18c per lb; 20 lbs, 16c per lb; 50 lbs, 15c per lb; 100 lbs, 13c per lb.

GRUNDY COUNTY WHITE BLOSSOM SWEET CLOVER—This resembles the white blossom in every way except it is more dwarf and does not get as coarse. Fine for pasture and hay. Price per lb, 35c; 10 lbs, \$2.25; 50 lbs, \$10.00 100 lbs, \$18.00:

WHITE DUTCH CLOVER

Fine to mix with Kentucky Blue Grass for lawn. Makes good pasture and bee food. Sow 5 pounds to the acre. Price per lb, 75c; 5 lbs, 65c each; 10 lbs, 60c per lb.

It pays big dividends to inoculate Alfalfa, Clover and Soy Bean seeds with Nitragin. Price for $\frac{1}{2}$ bu. size can 60c prepaid; 1 bu. size can, \$1.00 prepaid; 5 bu. size can, \$4.50 prepaid.

We are thoroughly convinced that inoculating alfalfa and clovers is the biggest investment a grower can make. We thought a few years ago that it was mostly theory but from actual tests we know that the fields where the seed was inoculated made a much larger and healthier growth and less liable to winter kill.

RAPE

An annual plant of the cabbage family. Grows readily alone or with a nurse crop and is considered one of the best pasture plants for all kinds of stock especially valuable for hogs and sheep. When eaten off will sprout up from near the ground and keep growing until cut down by hard frosts. Sow about 8 lbs. to the acre. Price per lb, 25c; 10 lbs, \$1.75; 25 lbs, \$3.25; 50 lbs, \$6.00; 100 lbs, \$10.50.

SOY BEANS

WISCONSIN BLACK—An early maturing bean and a good yielder. This seed being acclimated will mature and be more satisfactory than the southern seed and worth much more. Plant with the corn planter, being careful to stir up the corn and beans at the end of every row. This is for hogging off purpose and silage. If seed is wanted plant alone. Price, 10 lbs, \$1.50; 25 lbs, \$2.50;

CERTIFICATE OF NURSERY INSPECTION

Office of Secretary of Agriculture

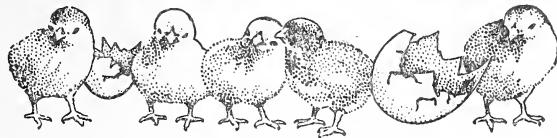

Pierre, S. D., July 18, 1925.

THIS IS TO CERTIFY that the nursery stock growing in the Northern Seed and Nursery Co., of Ipswich, South Dakota, has been inspected by John Hetland, duly appointed inspector of this office, in accordance with the provisions of Chapter 7, Session Laws of 1917, State of South Dakota and permission is hereby granted said nursery to sell and ship nursery stock which has been officially inspected and found apparently free from injurious insects, Arachnids, worms and dangerous plant diseases. This certificate is valid until July 1st, 1926 unless revoked.

Resident Nursery Certificate No. 223.

Department of Agriculture,
John Hetland, Nursery Inspector

Poultry Department

QUEEN INCUBATORS—180 egg size, Each \$30.00.

QUEEN BROODER—1200 chick size and one of the very best brooders on the market with automatic heat control. Each \$25.00.

BABY CHICKS—Barred Rocks. \$16.00 per 100. Order early.

BARRED ROCK EGGS—The old standbys. Ours are the large growthy kind. This is the only variety we have. Cockerels for sale after September 1.
Eggs, \$1.50 for setting; \$3.00 for 50; \$5.00 for 100.

CHICK FEED—This is our own balanced mixture of mixed grains and cracked corn and is sold very reasonable. Price \$2.25 for 50 lbs.; \$4.00, 100 lbs.

CHARCOAL—Mixed with poultry mash will keep the chicken's digestive organs in good condition. Price 10 lbs., \$1.00; 50 lbs., \$3.50;

EGG MASH—A scientific mixture recommended by the leading poultry raisers. 50 lb. bags, \$2.00; 100 lb. bags, \$3.50.

BRAN & SHORTS—From a small mill, as they cannot separate as close as the large mills, it contains much more feed value. Sold in 100 lb. bags. Cracked, Ground and Whole Corn at market prices. Write for prices.

SUNFLOWER SEED—Mammoth Russian, extra large headed...A fine feed and conditioner for poultry. Nothing equals it for fitting poultry for show purposes. Also fine for silage. Price per lb., 20c; 10 lbs, \$1.25; 20 lbs, \$2.00.

OYSTER SHELLS—100 lb. sacks, \$1.75.

ZENOLEUM—Is the best disinfectant and dip on the market. Nothing equals it for spraying and cleaning up diseases in poultry and hog houses, barns and outbuildings, dipping stock for vermin and skin diseases. Fifty experiment stations of the U. S. recommend it. Sold on a guarantee. Price 1 qt. can, 75c; $\frac{1}{2}$ gal; can, \$1.25;

ZENOLEUM—Lice Powder, 1 lb. can, 30c.

BIRD SEED

We have a very fine mixture of bird seed composed of Canary, Rape, Hemp and Millets. Price per lb. 20c; 10 lbs, \$1.50; 20 lbs, \$2.50.

Canary Seed in bulk, 1 lb. 20c; 5 lbs., 90c; 10 lbs., \$1.75.

Bird Rape in bulk, 1 lb., 20c; 5 lbs., 90c; 10 lbs., \$1.75.

Bird Hemp in bulk, 1 lb., 20c; 5 lbs., 90c; 10 lbs., \$1.75.

Bird Millets in bulk, 1 lb., 15c; 5 lbs., 60c; 10 lbs., \$1.00.

SAL VET

Without exception this is one of the very best mineral conditioners and tonics made. Nothing will equal it for getting rid of worms. Good for all kinds of stock but something absolutely necessary to feed hogs to destroy worms and keep them in the pink of condition so they will not become susceptible to cholera and swine plague. Nothing more reliable.

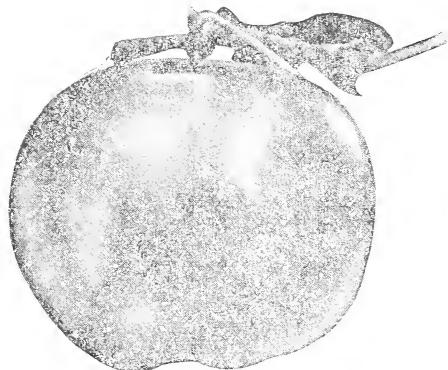

Sal-Vet now comes in pure powdered medicine form and the feeder adds the salt and makes his own mixture. The reason for doing this is that the feeder can buy salt as cheap as anyone else and can save at least one third and get the same results.

Price 3 lb package, \$1.00, add 17 lbs of salt; $7\frac{1}{2}$ lbs., \$2.10, add $42\frac{1}{2}$ lb. salt; 15 lb. package, \$3.60, add 85 lb. salt.

SAL-VET POULTRY TONIC—Excellent to tone up the chickens and make them lay.

Price 25c per package.

APPLES

The best liked and the healthiest fruit that grows. A ripe apple picked from the tree has a flavor that cannot be forgotten. There are quite a few varieties that do exceedingly well in the north and with just a little care will soon grow up and bear abundantly. But to avoid disappointment be sure to stick to the hardy kinds that are recommended by the experiment stations. If any variety that has any merit is hardy we will list it. Then, what is more appealing than an apple tree loaded with its pinkish white fragrant blossoms.

Cultivate around your apple trees as well as any other planting you make.

Keep in mind the planting of corn. Where corn will grow well you can expect apple trees to do well. You never expect to mature a stock of corn if planted in the sod, so don't expect a tree to perform a miracle if planted like a fence post.

We have an extra fine lot of transplanted apple trees this year with fine roots and which will please you immensely. We are pricing the hardy dependable varieties only at a very low figure.

ANOKA—A new variety originated by Prof. N. E. Hansen, and a most wonderful apple. Colors up quite similar to the Duchess, is medium size. The big thing about this apple is that it will commence to bear the second year after setting it out and will be in full bearing in about five years. Price 75c each; per 5, \$3.00.

ANISM—Trees grow upright and bear profusely, hardy and free from blight. Fruit medium size, dark red and of good quality.

CHARLAMOFF—Hardy, thrifty, early and regular grower. Green splashed with red, hangs on tree well. A choice desert apple.

DUCHESS—A favorite early apple. A good bearer of large green apples, striped with red. Fine for apple pie. One of the most popular.

HIBERNAL—The hardiest of all apples. The best for top working. Bears large green apples and the best of all pie apples.

OKABENA—Originated by H. J. Ludlow, a pioneer horticulturist, in Minnesota. Quite similar to Duchess. Worthy of a place in any orchard.

PATTEN'S GREENING—A vigorous and thrifty spreading grower and a good bearer of green apples that later turn yellow. Good keeper and one of the best for the northwest.

WEALTHY—The best of the large apples for eating. Fruit red and a good keeper. Originated in Minnesota and rightly considered the most popular apple grown.

YELLOW TRANSPARENT—Hardy grower of the earliest of the summer apples. A fine cooking and one of the most delicious of all when ripe. Price for all apples 3 to 5 feet, 50c each, per 10, \$4.00.

We have a few large sized Duchess, Hibernal, Patten's Greening and Wealthy for sale at \$1.00 each. Well worth twice as much and if you desire the larger trees to plant, order some of these as they will please you.

Here is a platform which every South Dakotan who has a home may agree upon. Some of the planks will have to be adjusted for our town lots but all may go most of the course proposed.

I will screen unsightly objects, barnyards and outbuildings.

I will improve the view of my house from the road and of the farm from my dining room and porch.

I will make a good permanent lawn, not a weed patch, and have borders instead of having flower beds in the center.

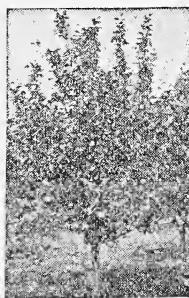

I will have fresh vegetables the year around.

I will make a practical flower bed.

I will plant some native South Dakota trees as an evidence of state pride.

I will plan and build a permanent home.

CRAB APPLES

Patten's Greening

FARIBAULT—One of the very best of the crabs. Trees a spreading and thrifty grower. Fruit yellow, splashed with red. We have grown this variety for years and we never failed to have a crop every year.

FLORENCE—A hardy, spreading tree, bearing very young and very heavy. Fruit medium size, carmine colored. Flesh yellowish, excellent for cooking. Considered one of the best crabs grown.

MINNESOTA—Fruit medium in size, greenish yellow splashed over with reddish stripes. Flavor mild and sweet.

RED SIBERIAN—Hardy and fine for jelly. Fruits rather small.

TRANSCENDENT—Originated in Russia. A good bearer of firm and juicy fruit. Very popular and one of the standard crabs.

WHITNEY NO. 20—An upright, hardy and healthy grower. Fruit rather large, color nearly red when ripe. Becomes mellow if left too long on the tree. One of the very best eating apples we grow. A fine canning and jelly crab.

EARLY STRAWBERRY—An old time favorite. Fruit medium in size, greenish yellow splashed over with reddish stripes. Flavor mild and sweet.

YELLOW SIBERIAN—Heavy bearer. Good for canning and jelly. Fruits rather small. Price for Crabs 3 to 5 feet, 50c; per 10, \$4.00.

DOLGA—Prof. Hansen's new crab. Bears young and is prolific. Fruit oblong and bright red. Extra fine for jellies and pickling. An outstanding variety. Price 65c; per 10, \$5.00.

PLUMS

South Dakota is a natural plum state and plums are so easy to raise and the fruit is so well liked that it is surprising that not more are raised. Failure with sturdy well grown trees that we are selling is very unlikely. If planted in groups or near one another, they seem to pollinate better. Plum trees start to bear generally the first year after setting them out. Our trees are budded and grafted on native plum stock and you will find them perfectly hardy.

Plant in cultivated land or where you can irrigate. Keep all sprouts hoed out.

DE SOTO—The standard hardy plum. Fruit medium. Color red when ripe. Flesh yellow and firm. An excellent variety for home use. Liable to overbear, in which case the fruit should be thinned out.

SURPRISE—One of the finest American plums, large, juicy and sweet. Good keeper. Considered one of the very best that grows.

TERRY—One of the largest of American plums. Fruit bright red, flesh firm, ripens in September. We do not think it is quite as hardy as the others listed.

WOLF—A very hardy and desirable plum. Fruit about the same size as De Soto, having a small pit. Has pleasant acid flavor.

WYANT—A thrifty grower making a fine tree for the orchard. Is a heavy bearer of good sized fruit. Color yellow and red. Ripens before the De Soto.

Plum prices 3 to 5 feet transplanted, 65c each; per 10, \$6.00.

NORTHERN SEED AND NURSERY COMPANY, IPSWICH, S. D.

HANSEN'S PLUMS

We consider the following varieties as Prof. Hansen's best plums, that have stood the test for growing and bearing and everyone should grow them. The Opata and Sapa should be headed low and left to grow in a bushy form.

HANSKA—A thrifty grower with an apricot flavor. The fruit is large, color bright red and extra fine for canning.

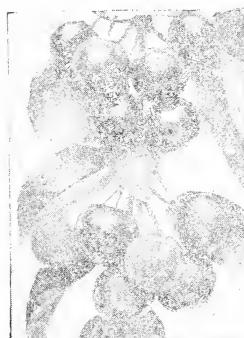

OPATA—Very prolific, bears early in life, color of fruit, dark purple with small pit, pleasant tasting. We place this variety our first choice.

SAPA—Prolific bearer of dark purplish medium size plums, extra fine for canning. Probably not quite as hardy as the above.

TOKATA—A large fine flavored plum. Has a rich orange red skin and flesh. Good for eating and canning.

WANETA—Prof. Hansen's latest and best plum. As large as the California plum and better tasting. Color of fruit, red.

Price 3 to 5 feet transplanted, 65c each; per 10, \$6.00.

COMPASS CHERRY

COMPASS CHERRY—This is one of the most reliable and best bearer of any of the plums. Fruits first year after setting out. Makes the most excellent jelly and preserves. No planting is complete without Compass Cherry.

Price 3 to 4 transplanted 65c; per 5, \$3.00.

ZUMBRA CHERRY

ZUMBRA CHERRY—Is a production of the Minn. Experiment Station and is a cross between a sweet cherry, sand cherry and pin cherry. Is very productive and good for preserves. Should be grown in bush form. Each 65c; per 5, \$3.00.

NUTS

HAZELNUT—A native shrub from Minnesota. Hardy but seems to thrive better if planted where it will have some little protection. 50c.

BLACK WALNUT—Grows to be a beautiful shaped tree and bears well after the tree gets to growing good. We have had trees bearing for quite a few years. Small transplanted trees 25c

NATIVE FRUITS

Distance lends enchantment to all of us and it is a great temptation to all of us not to order from a highly colored catalogue a Delicious Apple, Loring Plum, Elberta Peach or some other new and untried fruit and neglect that which grows wild at our door step. Thereare so many places for the native fruits and you will find most of them ornamental as well as useful. Here is a list and more fully described under ornamental shrubs.

BUFFALO BERRY—Price each 25c; per 10, \$2.00.

BLACK Currant—Price each 25c; per 10, \$2.00.

CHOKE CHERRY—3 to 4 feet 25c; per 10, \$2.00; 4 to 5 feet, 35c; per 10, \$3.00.

SAND CHERRY—Price each, 25c; per 10, \$2.00.

WILD BLACK CHERRY—Each 35c; per 10, \$3.00.

WILD OR NATIVE PLUM—Each 25c; per 10, \$2.00.

HORSE RADISH

HORSERADISH—Hardy anywhere. Fine for relish. Each 15c; 10 for 50c.

CATNIP—Price each 15c; per 5, 50c.

SMALL FRUITS

Don't hesitate to plant plenty of the following list of dependable small fruits. Nothing better for jellies, jams and preserves and to eat when ripened, naturally.

All small fruit is composed mostly of water, so do not forget to give the plants a chance, not only to live, but to store up enough extra vitality to produce a crop worth while.

CURRENTS

PERFECTION—One of the new varieties which is a wonderful bearer of large juicy and mild flavored red berries. Without exception one of the very best grown.

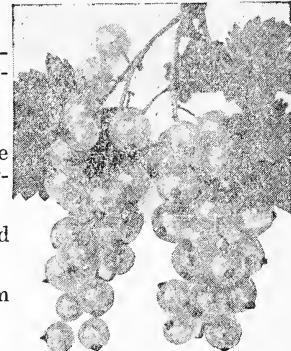

Price each 35c; per 10, \$3.00

RED DUTCH—An old standard, reliable and productive grower. Planted more extensively than any other variety. Medium size, red berry.

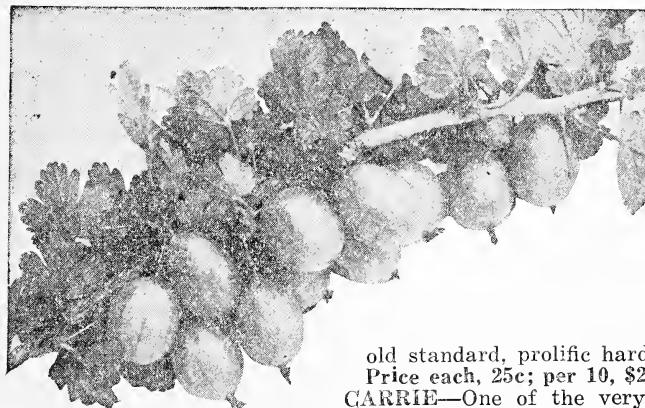

WHITE GRAPE—Standard white, very mild flavor and extra fine.

VICTORIA—A vigorous grower, red in color, medium size and an excellent variety.

Price on above Currants, 25c each; per 10, \$2.00.

GOOSEBERRY

This fruit is becoming more appreciated each year. It is always a reliable consistant bearer and is fine for pies and to mix with other less tart fruits for jellies, sauce and preserves.

We are propagating the new Hansen varieties and expect to offer them next season. The varieties we are offering are tried out and are absolutely dependable!

HOUGHTON—This is the old standard, prolific hardy, reliable variety.

Price each, 25c; per 10, \$2.00.

CARRIE—One of the very best. A vigorous grower of good sized berries. Very prolific. Color green.

Fine for canning and jelly. Price each 35c; per 10, \$3.00.

RASPBERRY

We grow only the Prof. Hansen's new varieties as these are the only ones that will withstand our climatic conditions. While it is not absolutely necessary, a light covering during winter, or planted where the snow will bank up around them, will give more berries.

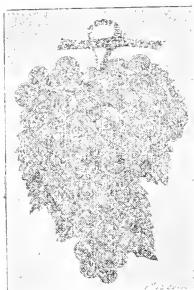

SUNBEAM—Is the hardest grown and a very prolific bearer of fine juicy fruit.

Price per 10, 75c; per 50, \$2.50.

OHTA—Hansen's improved, fruit larger than Sunbeam. Tender and juicy.

Price per 10, \$1.00; per 50, \$3.00.

GRAPES

Grapes, to do the best, except the native, should have some winter protection and be covered lightly with litter or snow or laid down and covered lightly with earth. Our experience has been that where they have some protection, they bear much heavier.

BETA—Is a cross between tame and wild, hardy, prolific and fine for cooking and jelly. Color similar to Concord.

ALPHA—Originated in Minnesota. Hardy and prolific, extra fine. Color, blue black.

NATIVE—This is the Dakota wild grape.
Price on all grapes, each 25c; per 10, \$2.00.

STRAWBERRY

Strawberry plants must be set out in well subdued soil and must be well cultivated and if the season is dry, irrigate as the fruit is mostly water and must have that element to mature their fruit to perfection. After the ground is frozen in the fall the plants must be covered lightly with some coarse litter and gradually raked off in the springtime.

SEN DUNLAP—One of the very finest summer varieties grown. Fruits are large and juicy and a good bearer.
Price per 50, 75c; per 100, \$1.25—Prepaid.

PROGRESSIVE—Standard reliable everbearing, true to name. Will bear from early summer until after hard late frosts. Everyone can enjoy strawberries and cream and strawberry shortcake all summer long by growing this variety. Price per 50, \$1.25; per 100, \$2.10 prepaid.

JUNE BERRY

SUCCESS—We are the only nursery in the west that is offering this improved Juneberry. Never fails to fruit, very hardy and dependable. Fruit large, juicy and less seedy than the native. Price each 35c; per 10, \$3.00.

NATIVE—Makes a growth larger than Success and is a desirable heavy ornamental.
Each, 25c; per 10, \$2.00.

ASPARAGUS

The earliest and hardest of all vegetables. Plant about 4 inches deep in rich soil. Will last a lifetime. Doctors all agree that it is the healthiest vegetable grown.

Asparagus can be planted in separate beds or around the edge of the garden. It will stand any amount of fertilizing. In planting cover the crowns 3 to 4 inches. Do not cut the first season and sparingly the second year.

WASHINGTON—A new variety originated by the U. S. Department of Agriculture. Extra large and fine and the coming asparagus. Price yearling plants 50 for \$1.50; 100 for \$2.50; 2 yr. plants, 50 for \$2.00; 100 for \$3.00.

PALMETTO—The old reliable variety. Price large thrifty plants, 50 for \$1.00; 100 for \$1.50.

PIE PLANT

The best early fruit and one of the best tonics. Fine for pies, sauce and canning. Plant loves a rich, moist location and is a gross feeder. Needs dividing every third year. The plants we offer are large and matured.

MAMMOTH—The largest variety of pie plant family; juicy and very tender.

PINEAPPLE—A distinctive variety, as its name implies. Stalks red and juicy.

Price each 15c; per 10, \$1.25.

SHADE TREES

We propagate our own trees and take particular pains that the parentage is grown in the north. Shade trees brought in from the south or east generally winter kill and prove failures.

We do not compete in price with the southern and eastern nurseymen. We cannot do it, because it takes us a third to twice as long to grow our stock, as our nursery is located on the high prairie land, but when we send our products out we know for a certainty they will stand up better, being grown under similar conditions where the trees will be transplanted to. All of our stock will be shipped the same day as dug and which insures success. Our trees will come to you in the pink of condition.

The following prices are for transplanted trees. This means an extra developed root system which means so much to the life and after development of the tree.

AMERICAN ELM—Without question the Elm is the best ornamental tree we grow for street purposes and for around buildings. Absolutely hardy and dependable. The graceful Elm gives a finished appearance to any home. We have an extra fine lot of all sizes that cannot be duplicated and that will please the most exacting.

Each	Per 10
4 to 5 feet, 30c	\$2.50
5 to 6 feet, 40c	\$3.50
6 to 8 feet, 60c	\$5.00
8 to 10 feet, 85c	\$7.00
10 to 12 feet, \$1.00	\$8.50

ASH—Native and extra hardy and a great drought resister. Will respond to kindly treatment and make a good sized tree if cultivated and watered well.

3 to 4 feet, 15c	\$1.00
4 to 5 feet, 25c	\$2.00
5 to 6 feet, 35c	\$3.00
6 to 8 feet, 50c	\$4.00
8 to 10 feet, 75c	\$6.00
10 to 12 feet \$1.00	\$8.50

BOX ELDER—One of the standbys, makes the densest of all shade trees, does well in alkali and gumbo soils

4 to 6 feet, 35c \$3.00

COTTONWOOD—This native tree we consider the best for windbreak purposes. Absolutely hardy, fast grower, sometimes growing 6 feet in a single season. A good background and alley tree, in fact is good anywhere. A tree that is associated with nearly all the early history incidents of our state and it deserves more kindly treatment than it sometimes receives. We have an extra fine lot this year.

4 to 5 feet, 20c	\$1.75
5 to 6 feet, 30c	\$2.50
6 to 8 feet, 40c	\$3.50
8 to 10 feet, 50c	\$4.00

NORWAY POPLAR—Called the sudden log tree on account of growing so fast. Is not considered a long lived tree.

Each	Per 10
3 to 4 feet, 25c	\$2.00
4 to 6 feet, 35c	\$3.00

NORTHWEST POPLAR—This is a native poplar and presumed to be a cross between the native Cottonwood and the Balm of Gilead. Tree is a rapid grower, hardy and dependable. Our trees are extra fine ones.

Each	Per 10
3 to 4 feet, 25c	\$2.00
4 to 6 feet, 35c	\$3.00
6 to 8 feet, 50c	\$4.00

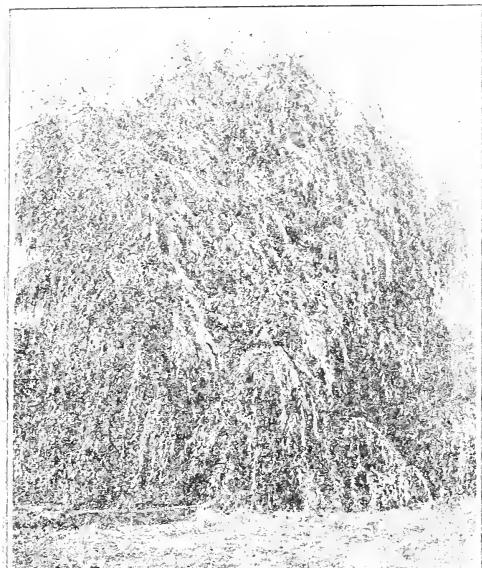

SILVERLEAFED POPLAR—Fine for landscape and ornamental purposes.

Each	Per 10
3 to 4 feet, 25c	\$2.00

RUSSIAN OLIVE—Fine for landscape purpose. Will withstand droughty condition. Blossoms have a very sweet scent and stony fruit readily eaten by birds during the winter.

Each	Per 10
3 to 4 feet, 25c	\$2.00
4 to 5 feet, 35c	\$3.00

SHADE TREES (Continued)

Niobe Weeping Willow

LINDEN OR BASSWOOD—This is a handsome lawn and shade tree, pyramidal in form with large, bright green leaves. Each, 50c; per 10, \$4.00.

WILD BLACK CHERRY—Native, ornamental as well as useful. Small black cherries good for jelly and the birds.

LAUREL LEAFED WILLOW—For specimen purposes we believe this is the finest of all the willow family. The dark shiny leaves and vivid green barks are very attractive. Is not subject to worm pests. Each Per 10

4 to 5 feet, 35c \$3.00

RUSSIAN GOLDEN WILLOW—The light green leaves with the golden bark makes in fine for variety. Absolutely hardy.

Each Per 10

4 to 5 feet, 25c \$2.00

NOIBE WEEPING WILLOW—This is the only hardy weeping willow. With its long pendulant and drooping limbs makes one of the most beautiful of all specimen trees. All willows do best in moist places. Plant a Niobe and enjoy one of natures wondrous beauties.

Each

3 to 4 feet, 35c

4 to 5 feet, 50c

EVERGREENS

There is not a tree as useful as the evergreen. When fully grown it is a protection in summer against hot winds and in winter from icy blasts, a comfortable tree for man and beast.

Our prices are for transplanted stock and which are shipped with dirt around the roots. Our past experience has not been the rosiest as when we shipped with roots packed in moss it allowed too much exposure to the wind and sun which an evergreen root cannot stand for a minute. When received see that it is planted without any delay and have a tree that you can enjoy the year around.

When winter's bleak and stormy mantle is thrown over mother earth the evergreen is then appreciated most and they are a gentle reminder that spring is just around the corner.

COLORADO BLUE SPRUCE—(Select). These are the silvery leafed spruces, called Shiners and the most beautiful of all specimen evergreens. Similar to the Green in growth.

18 inch, \$3.50

BLUE SPRUCE

EVERGREENS (Continued)

COLORADO SPRUCE—(Green) For a lawn specimen this spruce stands foremost. Its leafy boughs outstretch in a pyramidal symmetrical beauty and is universally admired.

18 inch, \$2.50
12 inch, 1.50

BLACK HILLS SPRUCE—Very desirable for ornamental and cemetery purposes and we think the best of the spruces for us to plant. A native evergreen which means so much in selecting something dependable.

Each	Per 10
12 inch, 60c	\$5.50
18 inch, 85c	\$7.50
2 feet, \$1.25	\$10.00

BLACK HILLS PINE—Best of all the pines and one of the most shapely.

Each	Per 10
18 inch, 75c	\$6.00
2 to 3 feet, \$1.00	\$7.50

JACK PINE—Hardy and good for windbreak.

12 inch, 35c	\$3.00
18 inch, 50c	\$4.00
2 to 3 feet, 75c	\$6.00
5 to 6 feet, \$7.50	each

All evergreens Balled and Burlapped.

HEDGE PLANTS

There is no planting that so emphasizes distinction as a nice, well kept hedge. For landscaping it is effective and is useful for dividing lines, screens, shutting off an undesirable view and lends an air of seclusion.

Set plants from 12 to 18 inches apart in the row. When plants are set, cut back to about three inches of the ground. The following year trim back to about six inches and the third year to within nine inches and one foot. This will give the base a chance to thicken up, which is necessary to make a compact, good appearing hedge. Many make the mistake of waiting too long before trimming back.

BUCKTHORN—We believe this is by far the best of all hedges. Beautiful colored leaves that cling late in the fall. Trims up easier and does not get as coarse. Hardy and dependable. Per 100 ----- \$7.50

CARAGANA—Or Siberian Pea Tree. Foliage very attractive and beautiful Per 100, ----- \$5.00

FLOWERING CurrANT—Native. Ornamental as well as useful. Per 100 ----- \$10.00

RUSSIAN OLIVE—Hardy and good drought resister. Silver leaves add beauty. Per 100 ----- \$3.50

VINES

AMERICAN IVY—Is the hardiest, most reliable of all climbers. A rapid grower. Strong transplanted plants. Each 35c; Per 5, \$1.25.

CLEMATIS JACKMANNI—There is no more beautiful sight than when the large purple blossoms cover the entire vine. Semi-hardy but will start up from the roots each year. We are sending these out in pots leafed out as they are extremely hard to transplant otherwise. Each \$1.25 and worth it.

CLEMATIS PANICULATA—Similar if not the same as the native Clematis. A good grower, having a small white flower and later turning to a white cottony seed. Strong transplanted plants. Each 35c; Per 5, \$1.50.

SCARLET TRUMPET HONEYSUCKLE—Best for covering low screens, etc. It is one of the most cheerful blossomers of scarlet flowers and is very desirable for bouquets and decorating. Strong transplanted plants. Each 35c; Per 5, \$1.50.

WILD GRAPE—Native; makes a good climber for screens, etc. Price each, 25c; Per 5, \$1.00.

BITTERSWEET—Native and an extra dependable, fine climber and twiner. Fruit ornamental. Price each, 35c; Per 5, \$1.50.

SMALL TREES

ASH—Hardy and always reliable.

BOX ELDER—Makes a dense shade tree.

COTTONWOOD—Reliable and fastest grown.

ELM—Stately and hardy.

Price for above:

RUSSIAN OLIVE—Fine for snow fence and wind break.

CARAGANA OR SIBERIAN PEA TREE

12 to 18 inch per 100, \$1.50

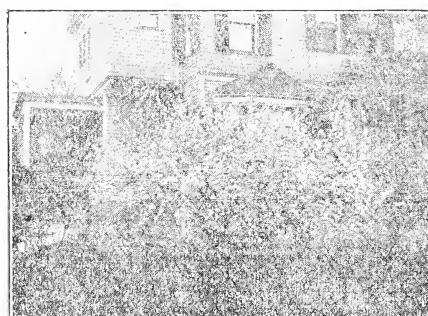

12 to 18 inch per 100, \$3.50

12 to 18 inch per 100, \$5.00

WILLOW CUTTINGS

Diamond, Golden, Laurel and Ural Willow ----- Per 100, 75c.
 "The nursery stock we received was fine and came through in excellent condition."

ORNAMENTAL AND FLOWERING SHRUBS

Flowering Almond

Here you will find listed only the hardiest of all the ornamentals. For banking around foundation and for landscape effect the ornamentals must be used.

Be very liberal in planting from this list. The first year's satisfaction in having these associates with you just make life worth living. Don't lose the best part of your life by not making a liberal planting of our hardy ornamental shrubs.

PINK FLOWERING ALMOND—The shrub is entirely covered with bloom before the leaves appear, with beautiful pink rose-like flowers snuggling tight to the twigs.

One of the outstanding beauties. ----- 75c

ALMOND-SIBERIAN—This is a dwarf hardy ornamental that Prof. Hansen brought over from cold Siberia. It is the first to blossom in the spring and no other ornamental attracts more attention. The rose pink blossoms which are fragrant come before the shrub leafs out. It is one of outstanding merit and should be in every collection. ----- 50c.

AMERICAN ELDER—Wide, showy green leaves with white flower followed by edible berries ----- 25c.

AM. WAHOO OR STRAWBERRY TREE—Native hardy leaves very showy with brilliant colored berries that hang on the tree all winter, very desirable and extremely attractive ----- 35c.

AMUR MAPLE—This is a very hardy small maple from Siberia, especially noteworthy on account of its beauty of shape and foliage and the glowing colors which it takes on in the fall. ----- 35c.

BLACK HILLS BLOOMING WILLOW—A new dwarf willow, very showy, silvery foliage, flowers yellow, blossoms all summer long. ----- 50c.

BLACK HILLS BIRCH—Coming from the Black Hills we think will be hardier than the other white birches, but like all birches will do better if planted in a partially shaded place. Makes a beautiful shaped tree. ----- 75c.

BUFFALO BERRY—A native strong grower with cheerful colored leaves and berries that are fine for jelly. ----- 25c.

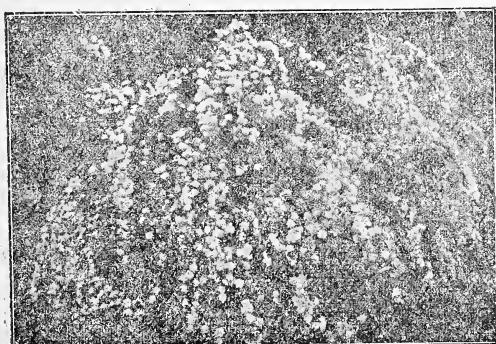

BUCKTHORN—Extra reliable ornamental as it can be pruned or trimmed to any shape desired ----- 35c.

CARAGANA OR SIBERIAN PEA TREE—Bark and leaves very attractive with yellow pea shaped blossoms in early summer. ----- 35c.

CHOKE CHERRY—Desirable showy, strong growing native, no blossoms more sweetly scented. Fruit good for jelly and the birds. ----- 35c.

ORNAMENTAL AND FLOWERING SHRUBS (Continued)

DOGWOOD—Siberian strain, red showy bark with white flowers, very desirable for landscape work. Will stand partial shade. The bark is very attractive in winter.	40c.
GOLDEN ELDER—Golden leaves with white flowers. Very showy and ornamental. Both elders will sometimes freeze to the ground but make a luxurious showy growth every season.	50c.
FLOWERING Currant—A hardy, desirable ornamental. Profuse bloomer of sweet scented yellow blossoms followed by a black edible currant. Useful as well as ornamental.	35c.
HIGH BUSH CRANBERRY—A very desirable ornamental, quite similar to snowball in blossoms. Fruits fine for jelly. Becoming very popular	50c.
HONEYSUCKLE-TARTARIAN—Is one of the most dependable and best ornamentals grown. the sweet scented blossoms remembered long after they fall. Light orange colored berries in late summer and early fall make it one of the outstanding of the ornamentals. Comes in two colors, white and pink. Fine bushy plants, not yearling slips. Absolutely hardy everywhere.	50c.
JAPANESE BARBERRY—Loaded with red berries in fall, is very effective. No relation to the kind that causes rust on wheat.	35c.
JASAMINE—A shrubby semi-climber, extremely hardy, purplish blossoms and showy silvery leaves.	25c.
JUNEBERRY—Native, blossoms white, the fruit of the Buffalo Berry, Choke Cherry and Juneberry are good for jelly. A hardy handsome, upright and stately grower.	35c.
PURPLE LEAF PLUM—A very desirable ornamental. The brilliant purple leaves always attract a great deal of attention. Makes a good background shrub but is very attractive wherever it is planted.	75c.
MAY DAY TREE—A bird cherry from Siberia. Very ornamental. First to leaf out in the spring; blossoms white, fruit quite similar to choke cherry. A fast grower and fine for background or where a heavy shrub is wanted.	75c.
MANITOU—An early spring-flowering tree or shrub, dwarf to medium size, producing great masses of pink bloom but no fruit. A hardy cross between Siberian almond and peach. Originated at Minnesota experiment station. Each 75c.	
PYRUS BACCATA OR WILD APPLE—An upright profuse blossomer with miniature apples in the early fall that color up like little cranberries. A fine large ornamental Price	50c.
PRUNUS TRILoba OR FLOWERING PLUM—A very popular ornamental with masses of double rose flowers that blossom early in the season.	75c.
PURPLE LEAF SAND CHERRY—One of the most attractive and outstanding ornaments grown. Leaves and bark a beautiful wine color. Bush makes a shapely growth. Introduced by Prof. N. E. Hansen.	75c
SUMAC—Leaves fern like turns to crimson in the fall. Very desirable to plant with other ornamentals. Stands trimming and can be kept at any desired height.	50c.
SNOWBALL—An old favorite, no planting is complete without this standby.	50c.
SNOWBERRY—A very freshish with attractive white berries	50c
SPIREA VAN HOUTTEI OR BRIDAL WREATH—The old favorite hardy white. Very desirable and more in demand than any other spirea.	35c.
SPIREA ARGUTA—The earliest of the spireas, blooming before Van Houttei. Flowers in massed umbels; Color white. Very beautiful and hardy.	35c.
SPIREA BILLARDI—With pink blossoms, no collection complete without this desirable ornamental.	35c.
SPIREA BUMULDA—Rosy colored blossoms, desirable and handsome shrub.	35c.
SYRINGA OR MOCK ORANGE—Has showy white blossoms. It sometimes freezes back to the ground.	35c.

Spirea Van Houttei

ORNAMENTAL AND FLOWERING SHRUBS (Continued)

TAMARIX AMURENSIS—A tall growing shrub with feathery foliage that resembles the Juniper. Has small pink flowers and the contrast with the foliage makes a very attractive and ornamental shrub. Quite hardy. 50c.

During the late spring, summer and early fall months, we have an abundance of beautiful perennial and annual blossoms, oceans of Iris, Peonies and Gladioli and can furnish cut flowers, bouquets, and for any occasions, sprays and designs for parties, weddings, funerals, upon short notice. We give special values that will please you. Phone or write us. We guarantee you quick service and satisfaction.

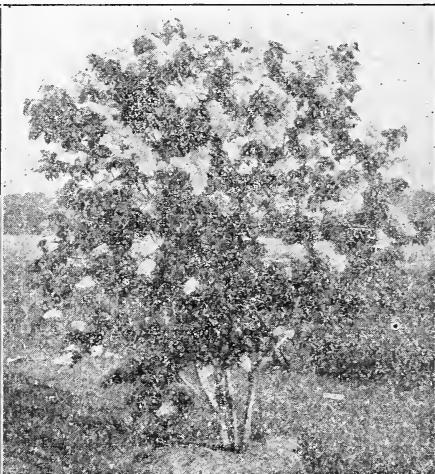

LILACS

No place is quite complete without the Lilacs. The hardest of all the shrubs, absolutely dependable and there is no scent as welcome and refreshing. All the world loves the Lilac. The newer varieties blossom at an early stage and are really beautiful. No shrub will stand the abuse and last as long as the lilacs.

COMMON PURPLE—The lovely old favorite.
Each 25c.

COMMON WHITE—A strong upright grower.
Each 35c

PERSIAN—Not as strong a grower but very graceful, shapely and showy, early blossomer. 35c.

THE NEW LILACS

The new lilacs start blossoming very early in life. Perfectly gorgously attractive and sweet scented.

MADAM LEMOINE—A large beautiful and delightful white. 50c.

JOSIKEA—A sturdy purple, very shapely. 50c.

VILLOSIA—Light pinkish purple somewhat dwarf in growth. 50c.

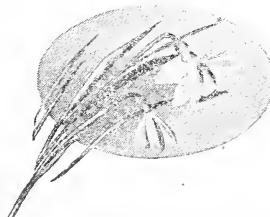

DR. BRETSCHNEIDER—A strong growing white very desirable. 50c.

SEN VOLLAND—A rosy colored blossom. A rather upright grower. 50c.

MADAME CASIMER PERIER—An attractive creamy white. 50c.

LUDWIG SPAETH—A very desirable purplish red. Nothing more attractive grows 50c.

CHINESE TREE LILAC—Grows to quite a tree and makes one of the best background shrubs. Has white blossoms. A little tardy to start blossoming but repays one well when it starts. 50c.

DUTCH BULBS

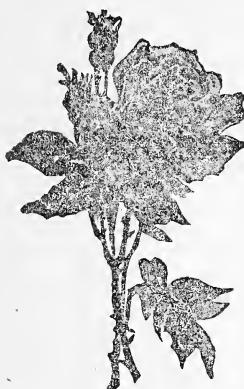

These are the harbingers of spring and are the first flowers to welcome us with their sweet fragrance. These must be planted in the fall and we will be pleased to send our Bulb and Peony list during the late summer with full descriptions of varieties. If you wish this list sent just write on your order "Send bulb list when issued."

When a firm will give you the privilege of returning your order if not satisfied and your money refunded, you can expect to get your money's worth.

Bargain collections and cheap prices generally mean little tender slips or dried up plants. Did you ever fail to get stung when you bit for a bargain collection? Buy from us and if you do not think you are getting your money's worth, send anything back and we will substitute or send you back your money. What's fairer?

"Was very much pleased with the Peony roots last fall and which are showing a sturdy growth."

ROSES

We only wish we had a larger list of hardy roses, but what we are offering outside of the semi-hardy ones are very satisfactory and stand our climate fine. Roses like good soil conditions, but cannot stand fresh fertilizers around the roots. Trim out old stocks every spring after the bush commences to leaf out. One advantage of the rugosas and perpetuums are that if the rose slug stings the first buds they will keep on throwing out new buds and you will have plenty of blossoms.

HARRISON'S YELLOW—The standard early blossoming yellow always attractive. ----- 50c.

TAYLOR'S DOUBLE WHITE—A very desirable double white flowers not very large but very dainty. ----- 1.00

HANSA RUGOSA—A semi-double dark red, extra fine, vivid red seed pods add to the ornamental value together with the healthy waxy leaves. ----- 75c.

BLANC DE COUBERT RUGOSA—A semi-double pure white, like Hansa, blossoms all summer. ----- 75c.

SEMI-HARDY ROSES

To satisfy some of the rose lovers and to demonstrate that for the north there is but a short list of hardy roses, we are offering a few varieties that will do well provided (note provided) they are covered with dirt in the late fall and uncovered in the spring and cut back where growth is green. These are varieties that agents generally recommend as hardy, but don't let them fool you. They must be protected in winter.

FRAU KARL DRUSCHKI—Flowers very large, beautiful, pure white. This is the best white Hybrid Perpetual.

GENERAL JACQUEMINOT—Brilliant crimson; not full, but large and extremely effective; fragrant and of excellent hardy habit.

PAUL NEYRON—Deep rose color. By far the largest variety in cultivation. A free bloomer; very desirable as a garden rose. Price of above varieties, each 75c.

LILLIES

FULVA DAY LILY—This is a tall growing, hardy orange colored flower, fine for background. ----- 25c.

LILY OF THE VALLEY—Dainty and very sweet scented. Does best on north side of buildings or in partial shade. ----- 15c.

SINGLE TIGER LILY—Mother's old favorite. ----- 15c.

DOUBLE TIGER LILY—An improved double. ----- 20c.

CUT FLOWERS

Nothing is ever received more gratefully than a bouquet of fresh flowers. During the growing season we have any quantity of Iris, Peonies, Gladioli and other outdoor flowers. Remember the sick, shut-ins, mother or a friend. \$1.00 and up and we prepay the postage. For weddings or other occasions if a quantity is wanted we will make special prices. Phone, wire or write from summer until fall frost. Satisfaction guaranteed.

We do not want you to liken us to the average tree agent as when you sign on the dotted line at an agent you have no comeback as it binds you to pay and accept the order whether you are satisfied or not. It is different with us.. If you are not satisfied with the shipment you get from us, send it back and your money will be refunded or adjusted to your satisfaction. Then see the amount you save buying from us.

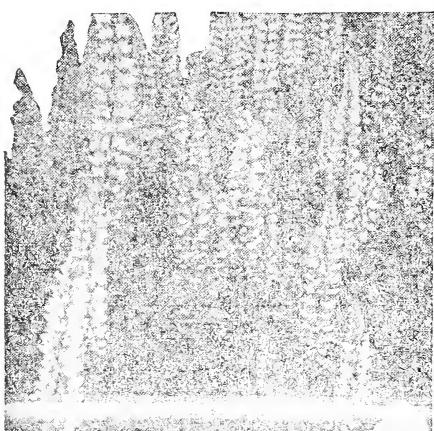

PERENNIAL FLOWERS

No home is quite complete without a good collection of the hardy perennials. Here nature tries to outdo herself in arranging all the delicate tints of the rainbow, exhaling the sweetest of the perfumes and a home without the perennials is like a home without a mother. A little protection in winter helps and a little care to see that weeds and grass do not choke them will repay one a thousand fold. The advantage of the Perennials is that they do not have to be replaced every season and most of them improve with age.

ACHILLEA—A delightful white, profuse bloomer, fine for bouquets. ----- 25c.
BLEEDING HEART—With heart shaped red flowers, a favorite with everyone ----- 50c.

Bouncing Betty

LARKSPUR

Words could never be found to faithfully portray the delicate loveliness and perfect grace of form of the Larkspurs. The broad spikes tapering towards the top are sheathed with masses of flowers tinted in the different blues.

LARKSPUR BELLADONNA—Free and nearly continuous bloomer of light blue flowers. 25c

LARKSPUR CHINENSIS—More of a dwarf growth with foliage small and deeply cleft; the flowers are bright dark blue in color and are loosely paniced. ----- 25c.

LARKSPUR FORMOSUM—The old dark blue favorite and still very popular. ----- 25c.

DAISIES

SHASTA DAISY—The best and largest of the summer daisies. A good showy blossomer. Grows about 18 inches tall. This is one of Burbank's flowers and is one of the popular daisies. A little protection in winter will help as it is not iron clad hardy. ----- 25c.

GIANT DAISY—A strong, late summer blossomer, extra fine. A good background flower that grows about 6 feet tall and is covered with large white daisies. ----- 25c.

PERENNIAL FLOWERS (Continued)

PLATYCODON OR JAPANESE BELL FLOWER—(Stake plants at flowering time.)
Extra fine colors, white and blue. ----- 35c.

PHLOX—One of the best and showiest of the perennials, blossoms during the hottest part of the summer and early fall when flowers are scarce. Fragrant, fine for bouquets. Varieties are red, white and pink. State color wanted. ----- 20c.

RUDBECKIA OR GOLDEN GLOW—Popular, showy yellow flowers, for background planting ----- 25c.

RIBBON GRASS—Very ornamental and showy. Leaves are striped. ----- 25c.

YUCCA—A native. These keep green during the entire year. Flowers are a beautiful white. ----- 50c.

Baby's Breath and Phlox

PINKS—These are like miniature carnations, sweet spicy scented. Come in many beautiful colors. ----- 25c.

IRIS

Truly called the orchids of the garden. All the variety of tints imaginable. There are three divisions of the Iris family, Pumula or early, Liberty or Large Flowering and Siberian, the last to flower. Very easy of culture and will stand dry weather better than nearly any other flower.

EARLY

PUMULA PURPLE—The old Flag of Grandma's day. ----- 10c.

PUMULA BLUE—Very delicate, sky blue. ----- 15c.

PUMULA GOLDEN—Very choice, extremely lovely and dainty. ----- 20c.

LARGE FLOWERING IRIS

AUREA—One of the best of yellows. ----- 20c.

BLUEBEARD—The best of the even shades of blue ----- 25c.

CANDIDA—Pale lavender. ----- 15c.

DELICATA—Comes in shades of lilac and lavender. ----- 20c.

FLORENTINA ALBA—A beautiful pure, fragrant white. ----- 25c.

HER MAJESTY—Soft rose, very beautiful and attractive. ----- 25c.

KHEDIVE—A very fine, pretty lavender. ----- 20c.

LA TENDRESSE—Lavender and lilac. ----- 15c.

MADAM CHEREAU—White, frilled with violet, beautiful and very popular. ----- 25c.

PALIDA DALMATICA—Queen among Iris, delightful lavender, large exquisite 25c.

PRINCESS VICTORIA LOUISE—Extremely fine, large and very beautiful. ----- 35c.

QUEEN OF MAY—Soft lilac rose. A color rare among Iris. ----- 35c.

SAN SOUCI—Golden and mahogany red, very attractive. ----- 15c.

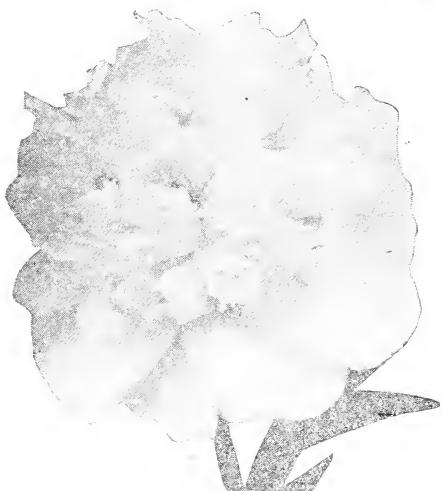

SIBERIAN IRIS

DISTINCTION—Beautiful blue sprinkled with white.	20c
LADY GODIVA—White, flushed rose, very attractive.	25c.
ORIENTALS—A beautiful deep blue.	15c.
SNOW QUEEN—White, golden throat, late, very fine.	20c.
SUPERBA—Large violet blue.	20c.

COLLECTION OF IRIS

Ten Iris of a mixed lot of six or more varieties for \$1.00.

PEONIES

Next to the rose there is nothing that can equal the peony for regal splendor. It is a luxurious flower, putting one in mind of quantities of velvety rose petals brought to form a single majestic bloom. Folks who grow a few old fashioned peonies—huge bushes occupying several square yards of ground, which seldom produce more than two or three second or third rate flowers—have simply no idea what our peonies which have been selected from the finest varieties in the world, are like. The delicious fragrance of these peonies, together with their splendid form and color, make them absolutely irresistible.

Planting Directions

See that your plants have a chance by planting them in well subdued and rich soil in a sunny location and away from trees or anything that will take the moisture and substance necessary for the growth of flowers. Remember that the flowers

are monstrous affairs in proportion to the plant and must be fed well during the year to bring forth the grandest blossoms any plant is blessed with. In planting, cover the eyes about two inches. Do not place fertilizer near the roots.

The prices quoted are for good three and five eye divisions—not little pared down stubs some send out.

REDS

ADOLphe ROUSSEAU—(Dessert 8.5) A very large semi-double early dark red.	\$2.00
ANDRE LAURES—A fragrant magenta red	50c
DELACHEI—Rich purplish red. A great favorite.	75c
FELIX CROUSSE—(Crousse 8.4) Rich brilliant ruby red. Very attractive and one of the best.	75c.
LOUIS VAN HOUTTEI—Velvety cerise red.	50c.
LA SUBLIME—Rich deep crimson, free bloomer.	50c
KARL ROSENFIELD—(Rosenfield 8.8.) Unsurpassed early brilliant red. Blossoms large and compact	\$2.50
MARY BRAND—(Brand 8.7). Large vivid crimson, strong grower, new.	\$6.00
OFFICINALIS RUBRA—The old fashioned early red, the first to blossom.	75c.
MONS. MARTIN CAHUZAC—(Dessert 8.8) The darkest red peony exquisitely wonderful	\$3.50

We ship thousands of peony blossoms during the month of June and they are becoming particularly popular to June brides for bouquets and decorations and in fact for any doings. Boxes of these lovely creations run from \$1.00 and up and if you are not satisfied with any shipment we make, just write us and we will leave it to you to determine what they are worth. Remember the shut-ins and their thanks of delight will repay you for these lovely fragrant blossoms.

PEONIES (Continued)

WHITES

COURRONNE D'OR—(Calot 8.1) Called the famous crown of gold. Late, fragrant; one of the best	\$1.00
DUCHESS D'NEMOURS—(Calot 8.1) Large sulphur white, free bloomer	75c.
DUKE OF WELLINGTON—Center sulphur white. One of the best for cut flowers	50c.
MADAM EMIL LEMOINE—(Lemoine 8.9) A mid-season bloomer of milk white blossoms, the buds are beautiful.	75c.
FESTIVA MAXIMA—(9.3) The most popular of the whites. Early, very large, center flecked crimson.	75c.
MME. D'VERNVILLE—Exquisite sulphur white productive, early	75c.
MARIE LEMOINE—(Calot 8.5) A wonderful white with yellow shading touched with pink, strong grower, late	75c.
LA TULIP—White flecked with carmen. Good keeper.	75c.
BOULE DE NEIGE—Milk white, guards flecked, unpleasant odor.	50c.
QUEEN VICTORIA—A favorite cut flower variety	50c.

PINKS

ACHILLE—Shell pink, vigorous grower	40c.
ASA GRAY—Large, lilac shade, midseason, fine	75c.
BARONESS SCHROEDER—(Kelway 9) Extra large, tall free blooming type	1.00
EDULUS SUPERBA—One of the most popular early pink.	50c.
EUGENE VERDIER—(Calot 8.6) Hydrangea pink, large midseason, extra	1.00
FLORAL TREASURE—A superb large pink	50c.
FRAGRANS—A fragrant violet rose.	50c.
GRANDIFLORA ROSEA—Even clear pink, early.	50c.
HUMEA—A cinnamon scented, late, large pink.	50c.
JEANE D'ARC—Soft pink, sulphur white and rose	50c.
L'ESPERENCE—A favorite deep pink	75c.
LIVINGSTON—(Crouse 8.1) Soft pink, lilac rose, full bloom	75c.
MATILDE MECHIN—Lilac rose.	50c.
MARGUERITE GERARD—Showy pink, creamy center.	75c.
MADAM CALOT—(8.1) Pinkish white, strong grower	50c.
MONS JULES ELIE—(Crousse 9.2) Early lilac rose, extra large and very popular. A grand flower.	2.00
NEPTUNE—Purplish rose with white strip.	.50
PIERRE DUCHARTRE—(Dessert 8.2) Very full rose type, lilac flesh with silvery reflex.	1.50
OCTAVIE DEMAY—Large, productive, pale pink, extra fine.	1.00
RENIE HORTENSE—(Calot 8.7) Desirable pink, crimson splashed	.75
RICHARDSON'S GRANDIFLORA—(Richardson 8.8) Immense light pink, late, a strong and vigorous grower	1.00

SOLFATERE—A new desirable pink.	.50
THERESE—(Dessert 9.8) A large, soft pink, shading into lilac, strong grower, mid-season, a wonderful variety.	8.00
TOURANGELLE—(Dessert 9.4) Large flesh pink, exquisite and charming beyond description.	7.50
PEONY COLLECTION—Our selection, one red, one white and one pink.	1.10

"The Peony roots were fine and are all starting nicely. I was very much pleased with them.

"I received my order and everything came in the finest of shape so I will send for more."

DAHLIAS

One of the most satisfactory flowers we grow. Blossoms in late summer and fall when other flowers are scarce. We propagate the best in the cactus, decorative and show varieties.

The Dahlia is very easy to grow. The roots we send out are divided and ready to plant. Place them about four inches

deep in the ground. Cultivate to keep weeds down and the ground moist. When frost kills the tops, cut them off near the surface, dig the tubers and store them in a cool cellar where frost will not reach them. Used extensively for bouquets and cut flower purposes. Good background flower. Note the very low prices.

CACTUS DAHLIAS

GEN BULLER—Rich, deep crimson, tipped with white. Very attractive.

HARBOR LIGHT—Vivid orange red.

J. H. JACKSON—One of the best of the dahlia family, dark red, nearly black.

KRIEMHILDA—A fine shade of pink with a white center.

Price for above varieties 15c each; two for 25c.

DECORATIVE DAHLIAS

CATHERINE DEUER—An extra large flower. Color, glowing shade of red. Extra fine. Each ----- 20c

MRS. CHAS. TURNER—Clear canary yellow, very large and attractive. Extra, ea. 20c

SOUV. DE GUSTAV DOUZON—Very large, beautiful orange scarlet. Profuse bloomer. Each ----- 20c

Above 20c varieties, two for 35c.

QUEEN OF YELLOW—Very fine yellow. Very free bloomer. Each 15c; two for 25c.

ZULU—Black velvety red. Each 10c; per three ----- 25c

SHOW AND FANCY DAHLIAS

A. D. LAVONI—A delicate pink. Very desirable. Each ----- 20c

BON TON—Deep rich red. A great favorite. Each ----- 15c.

CRIMSON GLOBE—Flowers round, crimson with long stems. Desirable. Each ----- 15c.

FRANK SMITH—A dark maroon, tipped with pinkish white. Each ----- 15c.

JACK ROSE—Named after the red rose. Each ----- 15c.

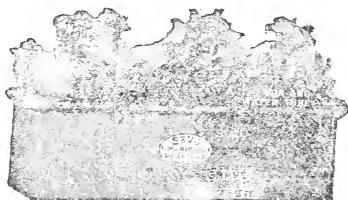

QUEEN VICTORIA—One of the finest of the yellows. Long stems. Profuse bloomer 15c

ROSE PINK CENTURY—The largest of the single flowered. Deep pink, on long stems.

Sure bloomer. Each ----- 15c.

Above varieties 15c each, two for 25c.

DAHLIA COLLECTION—12 mixed Dahlias ----- \$1.00

SELF WATERING WINDOW BOX

For windows, porches and sun parlors. Made of metal and are rust proof. No surface watering.

Handsome dark green enamel finish. The most efficient durable and artistic plant box made.

Price 29 inch long, \$4.00 each.

32 inch long, \$4.50 each.

41 inch long, \$5.00 each.

"Thank you for the very prompt service on the shrubbery. It was received in good condition and is growing very satisfactory."

GLADIOLI

There is no flower we grow from a bulb that gives the genuine satisfaction as Gladioli. Easy to raise and blossoms at a time when flowers are scarce. Extra fine for vase bouquets. Plant 4 inches deep. Must be dug up and stored during the winter and planted after May 15th. Our bulbs are extra fine.

AMERICA—The standard popular pink. Flowers large and fine for cut flowers.

BLUE HYBRIDS—Very best of the blue shades, dainty and popular.

MEADOWDALE—Fine white with blotched throat, very attractive. Good grower.

MRS. FRANCIS KING—The standard red. Strong grower. Extra fine and attractive.

GRETCHEN ZANG—Soft, melting pink merging into scarlet on lower petals.

NIAGARA—A delightful cream shade blending to a canary yellow; throat splashed with light carmine.

PEACE—A robust grower, reaching 5 feet; pure white with faint lilac markings on lower petals.

PANAMA—The new pink that has created such a sensation on account of its large waxlike flowers of glowing silvery rose.

PRIMULINUS HYBRIDS—The orchid like flowers are borne on long spikes quite different from the other Gladioli. Fine for bouquets.

SCHWABEN—Pure canary yellow shaded sulphur, the golden throat slightly blotched dull carmine. Flower spikes are tall and strong, numerous and well set with broad flowers.

HALLEY—A most attractive early blooming sort with large well opened flowers, cf deep salmon pink, tall graceful spike.

Price for Gladioli—Each 8c; per 10, 60c.

Mixed Gladioli our choice, 12 for 50c.

TERMS

Cash in advance. Personal checks accepted. All orders f. o. b. Ipswich, S D We ship most nursery and small seed orders by express. Bulk seeds generally are cheaper sent by freight. Garden and Flower seeds and 1 lb. seed lots are sent postage paid.

When orders are requested to be shipped by parcel post, please send the necessary postage or we will send parcel post collect. We can send orders weighing up to 70 pounds in the first, second and third class zones and up to 50 pounds outside of the third class zone. On account of nursery wrappings being so heavy, it is hard to estimate the postage. Also if you live on a prepaid station where there is no agent, include the transportation charges. If you ever receive anything from us in bad order, have it marked "bad order" on the freight or express slip as adjustment can be made much easier.

Unless instructed to the contrary on nursery orders, we will substitute other sizes or as good varieties, if we are sold out on any items.

We give personal attention to all orders and are very careful to label all stock true to name. In case any error occurs on our part, we are willing to replace the variety free, but if replacement is not made we shall not be liable for more than the purchase price.

The prices quoted on seeds are subject to market changes and as it is customary and according to the usages of the seed business, we give no warranty, express or implied, as to the description, quality or productiveness. If the purchaser does not accept the goods on these terms, they must be returned at once, and the money paid will be refunded. All seeds are sold bags weighed in.

Our nursery adjoins the city of Ipswich on the east (Home of the Yellowstone Trail) and visitors are always welcome.

Warehouse and office on the C. M. & St. P. Ry. Come and see us when in the neighborhood of Ipswich.

HORN HAND SEEDER—The most practical horn seeder made, \$1.25.

“Received the plants in fine shape and all are growing and blossoming which we think is very good and we will be down and order more for another year.”

This is not a very inviting picture to look at but shows what becomes of our cull trees. We could send most of these out but feel we have enough grief sending out good stock. Our aim is to send out the best stock and in the pink of condition.

PLEASE READ THIS

When your shipment of nursery stock arrives give it a chance. Unwrap in a protected shady place so that the roots will not be exposed to the hot sun or drying winds, and as soon as unwrapped, unless you can plant at once, please bury or cover the roots with moist dirt and plant one at a time. Then tenderly care for them.

When evergreens come balled and burlapped, leave the burlap on and plant the way it is received as evergreen roots cannot stand exposure to the weather.

PLANT IN CULTIVATED SOIL

Cultivated soil is the best place to plant all nursery stock, whether trees, shrubs or flowers, but if you plant in lawns or other places make extra wide holes and water good during the summer season and especially late summer and fall. What causes most winter killing of hardy nursery stock (and that is the only kind we grow) is the dry condition of the soil in winter.

WE CERTAINLY WILL APPRECIATE YOUR ORDERS
AND WILL DO EVERYTHING WE CAN TO MAKE YOU ONE
OF OUR PERMANENT CUSTOMERS.

WANETA PLUM
(See description under Plums)

We have an extra fine line of Plum and Apple trees, in fact, a fine assortment of all hardy Shade Trees, Ornamental Shrubs, Perennial Flowers and Small Fruits.

Start now to make the future a happy place to live in. Nothing adds more pleasure and wealth than a liberal planting of Nursery Stock. Trees for shade and windbreaks, Fruits for food and health and Flowers for beauty.

The northwest needs trees and then more trees. As soon as we make this important improvement then we will come into our own. Then think of the children and those that are to follow. Make a real home by working in with nature.

It has been proven absolutely that a dollar spent for hardy nursery stock adds many dollars to the value of your property. What more will money buy?

BUY DIRECT FROM US

We are here to meet you face to face. Why go 50-50 with an agent? With all his glowing promises the chances are that you will never see him again.
